Management and Information Services

Allen J. Barwick, Ph.D.
Budget Administrator

The Statistical Abstract of North Carolina Counties has been compiled by staff of the State Data Center under the direction of Francine J. Stephenson. Sections A, D, and E were prepared by Marianne Dale; B and C by Celia Fuller; F, G, and L by Earlean Strickland; H by Evan Anderson; and I, J, and K by Annette Jones. Nancy Strickland prepared the text using desktop publishing software. Graphs were done by Celia Fuller. Evan Anderson and Marianne Dale manage the data base containing all series published.

The cooperation of state and federal agency contributors is gratefully acknowledged.

Copies of this document may be obtained by writing the Librarian, Office of State Budget and Management, 116 West Jones Street, Raleigh, North Carolina 27603-8005 or by calling the State Data Center at 919/733-7061. Cost is $25.00 plus the prevailing tax rate. No C.O.D. or invoice billing.

May 1991

Preface

State government agencies, legislators, planners, researchers, and other interest groups need current, reliable data on which to plan and perform analyses. One major response to that need is the *Statistical Abstract of North Carolina Counties,* a basic sourcebook of socio-economic facts about the state and its counties, with an emphasis on historical information for trend comparisons.

This sixth edition of the abstract comes twenty years after the first edition and at a time when it has great potential for use in the state. Although the 1990 Census has been completed, the rich and detailed flow of data from census tabulations will not be complete for two years, and in the interim, agencies need current measures of trends on which to plan. This volume presents a broad picture of conditions in the state and counties through hundreds of data items arranged by major subject area.

When I coordinated the first statistical abstract in 1971, my goals and those of other state government statisticians who assisted were the same as the goals for this 1991 edition: that this volume will minimize the time and effort required to compile or research statistical data by its various users.

Agencies have defined and reviewed these data for mutual sharing and for release to the public through the abstract and through its parent on-line data base, Log into North Carolina, which is maintained by the Office of State Budget and Management. I wish to thank those individuals from various departmental agencies who cooperated to produce the data and documentation presented here. Also, I would like to thank the State Data Center staff for this contribution to statewide statistical coordination.

Marvin K. Dorman, Jr.
State Budget Officer

Introduction

Purpose of Publication

Because accurate and current statistical information is necessary for effective planning, budgeting, and research at all levels of government, the Office of State Budget and Management (OSBM) is committed to making available to government agencies and the general public a large amount of data about North Carolina. Encouraging the exchange and awareness of statistical information available within the state is an important goal of OSBM. This *Statistical Abstract of North Carolina Counties* presents a smorgasbord of information on counties. It serves both as a compendium of data and as an introduction to the many types of statistical series available about the state. It is hoped that the Abstract will be a useful tool to state legislators, administrators, program directors, and their staff, as well as to non-governmental interest groups.

The North Carolina State Data Center, as part of the Budget Office's role of statistical coordination in state government, provides compendia and directories of data and acts as a clearinghouse for the U. S. Department of Commerce census and economic information as well as much state agency data. Besides its state-mandated role of statistical coordination, the State Data Center program is also a cooperative effort between the state and the U. S. Bureau of the Census to assist data users of all types in getting access to Census Bureau statistics. The Data Center facilitates interchange and communication between state government statisticians through a State Government Statistics Forum and promotes sharing of data and statistical expertise. An overview of the data center network is given in the appendix.

This volume was developed by the State Data Center using data that have been input into OSBM's on-line data base Log into North Carolina (LINC), version three. Many state and federal agencies have supplied data and assisted with providing definitions to document the figures in this data base, some of which go back historically to 1970. State agencies and other users with access to the state computing center may access the data base directly. The data base is continually updated for new releases or definitional changes.

This publication is an update of the *1984 North Carolina State Government Statistical Abstract* and is part three of a series which includes the *North Carolina State Government Statistical System* and the *North Carolina State Government Statistical Register*. Each publication serves a unique purpose in assisting data users. Initially, the statistical abstract was patterned after the *U.S. Statistical Abstract,* and previous editions have contained tables for municipalities and state level statistics. This edition of the statistical abstract is restricted to county level data. The statistical system document, published in 1988, is an overview of statistical programs in state government designed to explain how the statistical system is organized and the major statistical activities. The statistical register, last published in 1988, is a comprehensive inventory of data series generated by state agencies, arranged by subject. It presents information such as the geographic area covered, the frequency and time lag of the data, and the title of a relevant publication or report, along with the name and address of a contact for the data. An auxiliary publication to this set of three is a pamphlet titled "Telephone Contacts for Data Users: State Government Statistics", which was updated in 1990.

This publication expands and replaces the *Profile, North Carolina Counties*.

The *Statistical Abstract of North Carolina Counties* should whet the appetite for additional information, perhaps for different levels of geography or for other similar measures. In that sense, it is both an introduction to the mass of state and federal agency statistics about the state as well as an introduction to the LINC on-line data base.

Types of Data Presented

State Data Center staff have developed a classification system for cataloguing all data items in the LINC data base, and thus in the abstract, into twelve major topic areas and into a variety of subtopics. This was done without agency input and with much debate as to the most useful classifications for data users. Only major topics serve as groupings for the publication, but the data base relies on the fuller classification. The classifications may differ from those used in the *North Carolina State Government Statistical Register.* Future editions of the register will reflect the revised typography.

Data are presented only for counties and the state, and a sum of counties is shown when appropriate. Many of the data series are available for municipalities on the LINC data base, and county groupings are derivable. It should be recognized that for some purposes, the county is not the most appropriate unit of geography for analysis. For example, county boundaries rarely comprise labor markets. However, because of its administrative uses and ready availability and also because of its manageability as the primary unit for tabulation, this publication is restricted to county level information. Over time, the Data Center has found that county level information is requested more often than any other geographic area.

Contributing agencies and the Data Center have cooperatively chosen to present in the abstract and in LINC those data series that tend to profile a county and those that are most frequently requested by data users around the state. Primarily, the choices have focused on socio-economic items rather than fiscal information. Given a choice of two measures, the option has been for information that shows the condition of a county rather than that which measures the activity of an agency.

User Notes

Footnotes occur occasionally in the abstract, but the aim has been to address all data anomalies in the glossary. Users should check the definition prior to using data from any table. Definitions in the glossary are in some cases abbreviated forms of those appearing on the LINC data base. Users should consult the on-line definitions for additional information when using LINC. The availability of precise definitions for data items makes LINC unique as a data base and the abstract unique as a state compendium of data. The State Data Center staff spend a great deal of time orienting data users to the specific caveats and idiosyncrasies of different data sources and have recognized how important it is to know what the figures measure in order to use data wisely. Contributing agencies have provided the definitions. Please note that definitions change as programs, policies, and interest in different aspects of a measure change. The Data Center is committed to working with state and federal agencies to keep the LINC definitions up to date and to have them accurately reflect changes in measures over time.

Missing data and non-applicable data are indicated by a dot (.). True measures of zero are indicated by zero (0). Unless otherwise stated, data are for a calendar year. State fiscal years (FY) run from July 1 through June 30 and federal fiscal years from October 1 through September 30. Fiscal years are referenced by the ending year, unless otherwise indicated in the table footnotes or glossary. The definitions are specific about the time period in most cases.

For many data series, revisions of historical figures may be released at the same time that new annual series are added. When users get more current data from source agencies, it is wise to ask about revisions of past data.

For the convenience of users who wish to access the LINC data base directly, the LINC (version three) variable numbers for each data item in a table are presented at the end of the table in the order that they appear in the table. Information concerning access to the LINC data base is available in the appendix. Users who do not have on-line access, but need small amounts of data on an occasional basis, may request them on microcomputer diskettes, using the LINC variable numbers for reference.

In the LINC data base and in this document there are instances of multiple sources for the same or similar measures. Titles reflect this occurrence by the use of an acronym or other source designation.

Several of the figures used in this publication are thematic maps plotted with county outlines. A reference map which gives the county names is printed in the appendix.

Future Updates

The *North Carolina State Government Statistical Abstract* was first published in 1971. Editions two through five were released in 1973, 1976, 1979, and 1984, respectively. This sixth edition, while less comprehensive in terms of the total number of data items presented, is taken directly from an active on-line data base and is thus up to date at press time. Furthermore, the data base will be maintained so that series are continually being updated, and new tables can be printed at any time.

Due to the effort now being spent on the data base itself, the abstract publication will not be reissued for several years. The next update will reflect tabulations from the 1990 Census of Population and Housing, the majority of which will be released to the Data Center by the end of 1993.

User Comments

User comments on the abstract as a whole or specific questions, comments, and concerns are welcomed. Data Center staff are eager to address and correct any errors that are reported. This is the first major release of printed data from the new LINC data base, and while this publication has been through numerous reviews and edits inside and outside the office, there is still the possibility for error in the mass of numbers reported. Accuracy is of prime importance to the successful use of the data base; so user comment is valued.

LINC Variable No. 6240

Glossary

Glossary

This glossary is arranged by LINC variable number and includes only those variables that appear in the publication. The referenced LINC variable numbers are located at the bottom of each table of the Abstract in the same order as they appear in columns of the table. Each glossary entry also shows the LINC variable name. Residing in the LINC data base is a full set of definitions with user notes and caveats for every series. These definitions have been abbreviated and adapted for publication to fit the subset of data presented.

2 ELEVATION
Elevation at County Seat (Feet above sea level). The height above sea level as measured at the county seat.

12 LANDAREA
Land Area (Square miles). The value reflects the total area in square miles within the county boundaries as delineated on the U.S. Geological Survey 1:100,000 scale map series, less the area of water bodies. Water bodies from this map series include: all sounds, rivers and streams greater than 200 feet in width, and lakes and ponds with a minimum width of 5000 feet. See TOTALAREA (variable 13).

13 TOTALAREA
Total Area (Square miles). Total area in square miles was calculated in the state's geographic information system at the North Carolina Center for Geographic Information and Analysis. The value reflects the total area in square miles within the county boundaries as delineated on the U.S. Geological Survey 1:100,000 scale map series. County boundaries for this map series were compiled by USGS from county records, although the precise locations of numerous county boundaries in North Carolina are in dispute. County boundaries were digitized to USGS National Digital Cartographic Standards, which requires line work to be accurate within .005 inches.

100 POPARS
Population by Age, Race, and Sex. Depending on the year, this is the corrected census count (April 1, 1970 and 1980), or the estimate or projection from the State Demographer (April 1, 1990, 2000, 2010; July 1, other years). A projection differs from an estimate in that it relies on certain assumptions about long term trends. The race distribution of POPARS is technically considered a projection, even when the county total is an estimate. When summed over age, race, and sex, POPARS is the same as POPULATION (variable 5001).

102 BIRTHS
Resident Live Births. Live births occurring to residents of the area during the calendar year.

103 DEATHS
Resident Deaths. Deaths occurring to residents of the area during the calendar year.

104 LABORFORCE
Labor Force by Place of Residence. Estimates represent the civilian labor force as the sum of the average annual employed persons (variable 105) and unemployed persons (variable 106) by place of residence. This variable is an annual average of monthly data for the calendar year. These "place of residence" estimates were developed with data secured from establishments (i.e., place of work) and adjusted to remove the effects of commuting and multiple jobholding. The data through 1983 are based on the 1970 census commuting patterns through a residency adjustment. Beginning in 1984, the adjustments are based on the 1980 census commuting patterns. The data are presented in unrounded form from 1986 forward, while the data for earlier years are rounded to the nearest ten. State level data are rounded to the nearest 100 and are periodically revised independent of the county revisions so that they differ significantly from the sum of counties.

105 EMPLOYED
Employment by Place of Residence. Included in the estimate of employed are all persons who worked for pay or profit, or worked without pay for 15 hours or more per week in a family farm or business. The figures include agricultural employment, nonagricultural wage and salary employment, unpaid family workers, and domestic workers in private households. This variable is an annual average of monthly data for the calendar year. See LABORFORCE (variable 104).

106 UNEMPLOYED
Unemployment by Place of Residence. Included in the estimate of unemployed are the residents who did not work at all during the month but were able, available and looking for work. The figures include all jobless persons looking for work, regardless of whether or not they qualify for unemployment insurance benefits. This variable is an annual average of monthly data for the calendar year. See LABORFORCE (variable 104).

107 UNEMPRATE
Unemployment Rate by Place of Residence. Data represent the average annual number of unemployed (variable 106) as a percentage of the average annual civilian labor force (variable 104). See LABORFORCE (variable 104).

108 NONAGWSEMP
Nonagricultural Wage and Salary Employment by Place of Work. This estimate of the average annual number of nonagricultural wage and salary jobs held by place of work (i.e., the county in which the job is held) excludes agriculture employment, non-farm

self-employed, domestic workers in private households, and unpaid family workers. Statewide totals are estimated independently and may not equal the summation of county data. This variable is the sum of MANUFWSEMP (variable 109) and NONMANWSEMP (variable 110).

109 MANUFWSEMP
Manufacturing Employment by Place of Work. These figures represent estimates of the average annual number of nonagricultural wage and salary manufacturing jobs held by place of work (i.e., the county in which the job is held) for all manufacturing as defined by the Standard Industrial Classification system. Statewide totals are estimated independently and may not equal the summation of county data. See NONAGWSEMP (variable 108).

110 NONMANWSEMP
Nonmanufacturing Employment by Place of Work. These figures represent estimates of the average annual number of nonagricultural wage and salary non-manufacturing jobs held by place of work (i.e., the county in which the job is held) for all non-manufacturing industries as defined by the Standard Industrial Classification system. Statewide totals are estimated independently and may not equal the summation of county data. Data are frequently revised historically. See NONAGWSEMP (variable 108).

111 CBPFQPAYROLL
First Quarter Payroll ($000s). This measure consists of payroll paid to persons employed at any time during the January through March quarter by establishments located in the reference area. Payroll includes all forms of compensation which are subject to income tax withholding: the combined amount of wages paid, tips reported, and other compensation including salaries, vacation allowances, bonuses, commissions, sick leave pay, and the value of payments in kind (such as free meals and lodgings) paid to employees before deductions for Social Security, income tax, insurance, union dues, etc. Excluded are pensions, annuities, third-party sick pay, and supplemental unemployment compensation benefits. For corporations, annual payroll includes amounts paid to officers and executives which are subject to income tax withholding; for unincorporated businesses, it does not include profit or other compensation of proprietors or partners. Government payrolls are excluded. State totals for County Business Patterns data may differ from the sum of counties because state totals include establishments that were not allocated to a particular county due to employers not having a fixed location or due to unknown county locations. This incomplete county detail causes only slight understatement for most major industry groups. Annual state level data for County Business Patterns are revised at the time a U.S. Summary is published. State totals shown for this series are unrevised. See CBPALLESTAB (variable 2101).

112 CBPEMPMAR12
Employees Week of March 12. Mid-March pay period employment is the count of employees during the pay period that includes March 12 as reported on Treasury Form 941, Schedule A, or as corrected by estimates. Each legal entity (corporation, partnership, sole proprietorship, etc.) having paid employees is required to file a separate employer's quarterly federal tax return, Treasury Form 941. Establishments are assigned county classifications on the basis of the physical location of the establishments. An "establishment" is a single physical location where business is conducted or where services or industrial operations are performed. Excluded from this tabulation are the following types of employment: government employees, self-employed persons, domestic service workers, railroad employees, agricultural production workers, and employees on oceanborne vessels or in foreign countries. Employees without a fixed location within a state or of unknown county locations are included in the state total, thus making it differ from the sum of counties. This incomplete county detail causes only slight understatement for most major industry groups. Some county data are omitted due to disclosure problems. Annual state level data for County Business Patterns are revised at the time a U.S. Summary is published. State totals shown for this series are unrevised. See CBPALLESTAB (variable 2101).

113 NEWINDINV
New Industry Investment ($000s). These estimates represent investment reported at the time an industry announces location plans. The county figures are provided for two year sums ending in odd years. The data are taken from newspaper articles obtained through a clipping service and from state and county industrial representatives.

114 EXPINDINV
Expanded Industry Investment ($000s). These estimates represent investment amounts estimated and reported at the time an industry announces expansion plans. The county figures are provided for two year sums ending in odd years. The data are obtained from newspaper articles obtained through a clipping service and from state and county industrial representatives.

115 NEWINDEMP
New Industry Employment. These data represent the number of new employees estimated and reported at the time an industry announces location plans. The county figures are provided for two year sums ending in odd years. The data are obtained from newspaper articles obtained through a clipping service and from state and county industrial representatives.

116 EXPINDEMP
Expanded Industry Employment. These data represent the number of new employees estimated and reported at the time an industry announces expansion plans. The county figures are provided for two year sums ending in odd years. The data are obtained from newspaper articles obtained through a clipping service and from state and county industrial representatives.

117 RETAILSALES
Gross Retail Sales ($000s). Data represent total taxable and non-taxable sales reported on the sales and use tax report forms and filed during the fiscal year. Figures are listed under the ending year of the fiscal year. The statewide summary includes North Carolina sales by foreign (outside North Carolina) merchants required to collect and remit the tax.

118 SALESUSETAX
Sales and Use Tax Collections ($000s). Represents total gross collections of state sales and use tax for the fiscal year, including registration fees, penalties, interest, and sales and use tax less merchants' discount of 3% of tax when applicable. The state total includes amounts which are not tabulated by county, including foreign (outside North Carolina) sales, use tax on motor vehicles, airplanes, and boats (beginning in 1990, manufactured homes, airplanes, and boats), and on utility services, and, beginning in 1990, the 8% highway use tax collected on motor vehicle leasing. County sums reflect rounding error. Data are listed under the ending year of the fiscal year.

119 HARVCROPLAND
Acres of Harvested Cropland. Cropland for the calendar year consists of all land from which crops were harvested, including field crops, hay, fruits and vegetables. Acres that have more than one crop harvested are counted only once. Data are based on a sample survey.

120 FARMINCOME
Estimated Farm Income ($000s). Farm income for the calendar year is the estimated gross cash income from the sale of crops, livestock and livestock products, and government payments. Although the federal government frequently revises state level estimates of farm income, the county series is revised only for the year prior to the most recent release. This state series agrees with the county totals.

121 AFDCRECIP
Recipients of Aid to Families with Dependent Children. These figures represent the average monthly number of regular AFDC recipients for the state fiscal year, listed under the ending year. The AFDC recipients do not include foster-care recipients, AFDC-emergency assistance or AFDC-unemployed parent programs. Data for the state represent the sum of the average monthly recipients in all counties.

125 REGVOTERS
Registered Voters. These figures reflect the total number of voter registrations as reported by county boards of election to the State Board of Elections as of October in the reference year.

126 DEMOCRATS
Registered Democrats. These figures reflect the total number of Democrat registrations as reported by county boards of election to the State Board of Elections as of October in the reference year.

127 REPUBLICANS
Registered Republicans. These figures reflect the total number of Republican registrations as reported by county boards of election to the State Board of Elections as of October in the reference year.

129 FINALENROLL
Final Enrollment, Public School. The enrollment figures represent the final annual enrollment in the state's public school system (grades K-12) for the nine-month school year. Final annual enrollment is a cumulative total of students enrolled throughout the school year and is not adjusted to reflect withdrawals. Included in these figures are those students who transferred to the public school system from another state or from another North Carolina school district, as well as non-public school students entering the public schools. The kindergarten program was phased in from school year 1973-74 to school year 1976-77. Listed under the ending year of the school year.

130 FIRSTMOADM
First Month Average Daily Membership, Public School. The first month average daily membership represents the sum of the "number of days in membership" of all students for the first month of the school year divided by the number of school days in that month. Listed under the beginning year of the school year.

131 COMCOLLENROL
Community College Enrollment. The fall quarter headcount enrollment in curriculum and extension courses in the state community college system is shown by enrollee's county of residence. The state total excludes enrollees from out-of-state. Listed under the beginning year of the school year.

132 PUBLICCOLL
Public College Enrollment Home County. The number of in-state undergraduate students enrolled during the fall term in North Carolina public institutions of higher learning is shown by home county of the student. Enrollment refers to the headcount resident-credit enrollment, which includes full-time and part-time students enrolled in courses basic to or creditable to a bachelor's or higher degree. This excludes students in extension, correspondence, adult education, audited courses, short courses, and those enrolled for individual lessons only. Undergraduate includes students who have not completed a full four-year program or its equivalent and also students in a five-year bachelor's program. Data exclude the public community colleges and military centers. In-state students are those whose legal residence, as determined by the institution, is North Carolina. The state total enrollment includes students who did not report a home county. Listed under the beginning year of the school year.

133 PRIVATECOLL
Private College Enrollment Home County The number of in-state undergraduate students enrolled during the fall term in North Carolina private institutions of higher learning is shown by home county of the student. Enrollment refers to the headcount resident-credit enrollment, which includes full-time and part-time students enrolled in courses basic to or creditable to a bachelor's or higher degree. This excludes students in extension, correspondence, adult education, audited courses, short courses, and those

enrolled for individual lessons only. Undergraduate includes students who have not completed a full four-year program or its equivalent and also students in a five-year bachelor's program. In-state students are those whose legal residence, as determined by the institution, is North Carolina. Data were excluded for students at Southeastern Seminary for 1970 and 1980, and for Davidson College and Duke University for 1970. The state total enrollment includes students who did not report a home county. Listed under the beginning year of the school year.

134 PHYSICIANS
Active Primary Care Physicians. Primary care physicians are defined as active physicians in the specialties of general practice, family practice, internal medicine, pediatrics, and obstetrics/gynecology. Included in this count are non-federal, non-residency, practicing physicians and doctors of osteopathy as licensed by the N.C. Board of Medical Examiners effective October of the listed year. The data are assigned to counties by the physician's business address, if known, and to the home county if the business address is not known. Active physicians plus those of unknown activity status are included, since most with an unknown activity status are newly licensed practitioners.

136 INFANTDEATHS
Infant Deaths. An infant death is defined as death of a live born infant under one year of age. The infant death rate is defined as resident infant deaths per 1,000 resident live births for the calendar year.

137 PRISONADMIS
Prison Admissions. These data represent total commitments to the state prison system during the calendar year by county of conviction (i.e., county ordering imprisonment). Included are new admissions and probation revocations. Re-entries by capture and parole revocation are excluded. As of 1980, new admissions include "unsentenced" inmates, that is, presentence diagnostic cases and safekeepers. If the prisoner was already under parole supervision at the time he reappears in prison, he is not counted as a "new admission" for his reappearance (presumably for a parole revocation), even if he is being given a new sentence. Instead, he will be counted as a "re-entry". If a prisoner is released from prison upon successful appeal of his conviction and is again sentenced to prison upon reconviction, he will appear twice as a new admission for the same crime(s). The same is true for presentence diagnostic cases and safekeepers if they return to prison after sentencing. The state total includes persons with incomplete county of conviction information.

138 PAROLEWDUALS
Parole Population with Duals. These figures reflect the supervised parole and conditional release population at the end of the calendar year by their county of supervision (usually the same as county of conviction). Beginning with 1984 data, the figures are restricted to those individuals who were "actively supervised", even if clients were on deferred or suspended status (abscondees are included in suspended status). Prior to 1984, abscondees were included in the state totals but were unallocated to counties; after 1984, they are included in the county of supervision. Clients classified as "duals", i.e., those with both a probation and parole sentence, are included. Thus PAROLEWDUALS is the sum of PAROLENODUAL (variable 1118) and DUALSUPERVSD (variable 1117). All figures exclude parolees (and duals) supervised by another state for North Carolina and N.C. clients living in another state. The state total includes some clients unassigned to a particular county due to incomplete information.

139 PROBATION
Probation Population. These figures represent the supervised probation population as of December 31 listed by their county of supervision (usually the same as county of conviction). For years prior to 1979, data may represent fiscal year ending in the reference year. Beginning with 1984 data, the figures are restricted to those individuals who are "actively supervised", even if they were on deferred or suspended status (abscondees are included in suspended status). For all years abscondees are included in the county of supervision. "Duals", individuals with both a probation and a parole sentence, are excluded (for years prior to 1979, duals may be included). All figures exclude probationers supervised by another state for North Carolina and N.C. clients living in another state. The state total includes some clients unassigned to a particular county due to incomplete information.

140 YOUTHS
Youth School Admissions. The number of admissions in the calendar year, by county from which the referrals were made, to the five state-supported youth services schools are indicated by these figures. Children under the age of 17 years may be admitted to the schools for committing delinquent offenses. Although a court order is required for commitment of a child, the child is not a convicted criminal. At the age of 18, youths are no longer eligible for detention in the youth services schools.

141 REGISTRATION
Auto and Truck Registrations. Included in the totals for the calendar year are actual registrations for automobiles and trucks by county in which the vehicles were registered. North Carolina began a staggered registration system in 1980. Annual data are summarized by county in mid-December and represent the number of valid automobile and truck registrations in the system at that time (including those within the grace period for renewal). Excluded are registrations for trailers, buses, motorcycles, dealers, transporters, driveaway and public-owned passenger vehicles, mobile homes, tractor trucks, and wreckers. Vehicles registered in other states are also excluded. As of 1987, the auto and truck totals exclude recreational vehicles and include jeeps; whereas prior to that year, recreational vehicles were included and jeeps were excluded. The number given for North Carolina is a summation of the counties. Beginning with 1989 the annual figures were taken from the following January report.

142 ACCIDENTS
Traffic Accidents. These figures represent the number of reportable traffic accidents in the calendar year. A reportable accident is one which involves a motor vehicle resulting in injury, death, or total property damage of $500 or more. The property damage amount was $100 until July 1, 1971 and $200 until October 1, 1983. Reported by county of occurrence. The state figure represents the sum of county totals.

143 INJURED
Persons Injured in Traffic Accidents. The number of persons injured in reportable traffic accidents as determined from the investigating officer's reports, which are filed within 24 hours of the accident. Injuries include (1) bleeding wounds, distorted members or any condition that required the victim to be carried from the scene, (2) other visible injuries such as bruises, abrasions, swelling, limping or other painful movement, and (3) complaint of pain, without visible signs of injury; or momentary unconsciousness. Reported by county of occurrence. The state figure represents the sum of county totals. The count of persons injured excludes persons killed, FATALITIES (variable 144). See ACCIDENTS (variable 142).

144 FATALITIES
Traffic Accident Fatalities. A traffic fatality is the death due to injuries of an individual within 30 days from the date of a reportable traffic accident in which he/she was involved, as determined by the investigating officer's report, which is filed within 24 hours of the accident. Reported by county of occurrence. Effective January 1, 1989, the basis for recording a traffic fatality was lowered from 90 to 30 days from the date of the accident. In earlier years, the time basis was one year. Reported by county of occurrence. See ACCIDENTS (variable 142) and INJURED (variable 143).

145 PRIMARYMI
Primary Highway Mileage. Total mileage for primary roads as of December 31. Includes both paved and unpaved mileage. The state primary highway system is composed of all interstate, U.S., and N.C. numbered highways.

146 SECONDARYMI
Secondary Highway Mileage. Total mileage for secondary roads as of December 31. Includes both paved and unpaved mileage. The state secondary road system is composed of all state-maintainted roads other than primary ones. A small amount of unnumbered roads such as school driveways, state university campuses, rural fire departments, etc., are not included.

147 PAVEDMI
Paved Highway Mileage. Total paved mileage of primary and secondary roads as of December 31. A small amount of unnumbered roads such as school driveways, state university campuses, rural fire departments, etc., are not included.

148 UNPAVEDMI
Unpaved Highway Mileage. Total unpaved mileage of primary and secondary roads as of December 31. A small amount of unnumbered roads such as school driveways, state university campuses, rural fire departments, etc,, are not included.

221 HOUSEHOLDEST
Estimated Number of Households. The method used to prepare July 1 estimates of households for counties represents an extension of the method used to estimate households for states based on national trends in the average adult population per household. The estimated numbers have been rounded to the nearest thousand for states and to the nearest hundred for counties.

222 PERSPHHEST
Estimated Number of Persons per Household. This figure represents an estimate of the average number of persons per household for the reference area. It is calculated as household population (total population minus group quarters population) divided by households. Although household estimates are given in rounded form, this average was calculated using the unrounded numbers. See HOUSEHOLDEST (variable 221).

223 MEDFINCEST
Estimated Median Family Income--HUD ($). Data are estimates of median family income prepared by HUD as part of the process of updating eligibility income limits for the department's various housing and community development programs. The estimates are done separately for Metropolitan Statistical Areas (MSAs) and for nonmetropolitan counties. The estimate for a metropolitan county is the same as for the entire MSA in which it is located.

301 NETMIGRATION
Estimated Net Migration. Net migration represents the difference between two consecutive population totals after accounting for the change due to births and deaths, i.e., natural increase. It is the difference between the total number of in-migrants to and the total number of out-migrants from an area. These figures are estimates of net migration for the period July 1 of the previous year to July 1 of the reference year, provided both are non-census years. (Because each decennial census is conducted on April 1, net migration figures for 1979, 1980, and 1981 reflect estimates for the periods April 1, 1970 to July 1, 1971; July 1, 1979 to April 1, 1980; and April 1, 1980 to July 1, 1981; respectively. Thus, 1971 represents migration over a 15 month period; 1980, a 9-month period; and 1981, a 15 month period). The state total and county sum may differ because of rounding.

501 PREGNANCIES
Pregnancies for Females. The total number of the following events during the calendar year to resident women of all ages: live births, fetal deaths of 20 or more weeks gestation and induced abortions. Stillbirths of less than 20 weeks gestation are not included in this count. These figures are generated by adding data from birth certificates, fetal death certificates, and induced abortion reports from abortion providers. The sum of the counties does not always equal data for the state since the state includes persons whose county of residence is unknown.

502 PREGTEEN
Pregnancies for Females 15-19. The total number of the following events during the calendar year to resident women ages 15-19: live births, fetal deaths of 20 or more weeks gestation and induced abortions to women ages 15-19. The sum of the counties does not always equal data for the state since the state includes persons whose county of residence is unknown. See PREGNANCIES (variable 501).

503 ABORTIONS
Reported Abortions. Induced abortion is defined as the purposeful termination of a pregnancy. These data are for residents and include induced abortions only; they do not include spontaneous abortions (miscarriages). These calendar year figures are generated from induced abortion reports from abortion providers. The sum of the counties does not always equal data for the state since the state includes persons whose county of residence is unknown.

504 DEATHNONGER
Nongeriatric Deaths. Deaths to residents under age 65. These figures come from death certificates for the calendar year.

506 DEATHVIOLENT
Deaths by Violent Causes. Deaths to residents from injuries, suicides, homicides and legal interventions. These figures come from death certificates for the calendar year.

507 MARRIAGES
Marriages. The number of marriages that occurred in an area during the calendar year. These figures are for occurrence only, because the bride and groom may reside in different counties. Marriage certificates are the source.

508 DIVORCES
Divorces. The number of divorces and annulments that occurred in an area. These figures are for occurrence only, because the divorcing parties may reside in different counties. Divorce records are the source.

509 MIDLEVELPRAC
Midlevel Practitioners. Active nurse practitioners plus active physician's assistants. This count includes extenders who are registered with the N.C. Board of Medical Examiners effective October of the listed year, and includes those whose activity status is unknown. The data are provided by county of the extender's business address and by home address if the business address is not known.

510 NURSES
Registered Nurses. This count includes registered nurses who are licensed by the N.C. Board of Nursing effective October of the listed year and includes those whose activity status is unknown. Nurse practitioners registered with the Board of Medical Examiners are also included in this count. The data are provided by the county of the nurse's business address and by home county if the business address is not known. The sum of the counties does not always equal data for the state since the state includes nurses whose county of residence and county of practice are unknown.

511 DENTISTS
Active Dentists. This count includes dentists who are licensed by the N.C. Board of Dental Examiners effective October of the listed year and includes those whose activity status is unknown. The data are provided by the county of the dentist's business address and by home address if the business address is not known.

512 HOSPDISCH
Hospital Discharges. Discharges of residents of the county from beds in all short-stay, general hospitals in the state. Excluded are federal and state hospitals, with the exception of one state facility, N.C. Memorial Hospital in Orange County, which is included. Newborn babies are excluded. In most cases, data are estimated for the federal fiscal year based on four months, January, April, July and October. Counties which border other states reflect an under reporting of discharges since only discharges to residents of the county from hospitals in North Carolina are counted. Counties affected are mainly Alleghany, Camden, Caswell, Cherokee, Clay, Columbus, Currituck, Dare, Gates, Hertford, Pasquotank and Perquimans. Data for the state do not equal the sum of counties since statewide discharges include N.C. residents whose county is unknown and out-of-state residents discharged from N.C. hospitals. See HOSPBEDSGEN (variable 524) for beds included in short-stay general hospitals.

513 LONGTERMCARE
Skilled Nursing and Intermediate Care Beds. This count includes beds-in-use licensed for skilled nursing care, meaning those offering a level of care less than that offered in an acute care hospital, but providing licensed nursing coverage 24 hours a day, seven days a week; plus intermediate care, meaning those offering a level of care less than that offered in a skilled care facility, but providing licensed nursing coverage eight hours a day. In addition to these beds, licensed skilled and intermediate care beds in nonfederal, nonstate general hospitals are included. Data for each county represent the sum of the beds in the facilities located in that county. Data for the state reflect the sum of beds in the counties. Nursing beds in hospitals are licensed for the ending year of the federal fiscal year and beds in nursing homes are licensed for the November 1-October 31 period, ending year.

516 MHPSYCHHOSP
Persons Served in State Psychiatric Hospitals. Sometimes referred to as "episodes of care", these counts reflect the total number of persons who were active (or the resident population) at the start of the state fiscal year plus the total of first admissions, readmissions and transfers-in which occurred during the fiscal year at the four state psychiatric hospitals. Excluded are visiting patients and outpatients. Multiple admissions of the same client are counted multiple times. County of residence is reported at the time of admission. North Carolina data include clients reported to reside out-of-state. The resident population is counted on July 1.

517 MHMRCENTERS
Persons Served in Mental Retardation Centers. All clients in residence at or on leave from a state Mental Retardation Center at the start of the state fiscal year plus all admitted during the year. Transfers-in and persons served in respite care are excluded. Multiple admissions of the same client are counted multiple times. County of residence is reported at the time of admission. North Carolina data include clients reported to reside out-of-state. The resident population is counted on July 1.

518 MHALCOHOL
Persons Served in Alcohol and Drug Treatment Centers. Sometimes referred to as "episodes of care", these counts reflect the total number of persons who were active (or the resident population) at the start of the state fiscal year plus the total of first admissions, readmissions and transfers-in which occurred during the fiscal year at the three state alcohol and drug abuse treatment centers. Excluded are visiting patients and outpatients. Multiple admissions of the same client are counted multiple times. County of residence is reported at the time of admission. North Carolina data include clients reported to reside out-of-state. The resident population is counted on July 1.

519 MHAREAPERS
Persons Served in Area Programs. All clients of a community based Area Program for mental health, developmental disabilities, drug and alcohol abuse or of one of three Regional Mental Health facilities active at the beginning of the state fiscal year plus all admissions during the year. Multiple admissions of the same client are counted multiple times. County of residence is reported at the time of admission. North Carolina data include clients reported to reside out-of-state.

520 BLINDVI
Blind and Visually Handicapped Persons. A count of the number of North Carolinians on the Register of Blind and Visually Impaired Persons as of December of the reference year by county of residence.

523 BIRTHLOWWT
Low-Weight Births. Newborns weighing under 2500 grams (5 pounds 8 ounces) at birth, regardless of length of gestation, as reported on the birth certificate for the calendar year. Low-weight births are at increased risk of infant death and illness. The term premature is used in a number of publications.

524 HOSPBEDSGEN
Beds in General Hospitals. Defined as "beds in use" in general hospitals, which are designated for short-stay use as licensed during the federal fiscal year. Included are beds for general medical or surgical use, beds which are for general psychiatric disorders, rehabilitation beds, eye - ear - nose - and - throat beds and pulmonary disease beds. Excluded are beds in all federal hospitals and state hospitals. An exception is the inclusion of beds in one state facility, N.C. Memorial Hospital in Orange County. Data for each county represent the sum of the beds in the general hospitals located in that county. Data for the state reflect the sum of beds in the counties.

701 FOODSTAMPR
Recipients of Food Stamps. The average monthly number of persons during the state fiscal year who were recipients of the federally funded Food Stamp Program, which issues to eligible recipients coupons that are redeemable for food products at most retail food stores. Prior to 1975 counties were not required to participate in the food stamp program and some chose commodity food distribution as an alternative. Data for the state represent the sum of the average monthly recipients in all counties.

702 FOODSTAMPH
Household Recipients of Food Stamps. The average monthly number of households during the state fiscal year which received benefits from the federally funded Food Stamp Program, which issues coupons that are redeemable for food products at most retail food stores. Data for the state represent the sum of the average monthly recipients in all counties.

703 ENERGYASSTH
Approved Cases for Energy Assistance. The number of households which were approved cases in the federal Low-Income Home Energy Assistance Block Grant Program during the state fiscal year. This program provides a one-time cash payment to help eligible families pay their heating bills. For 1990 the data are through the period ending March 31. Data for the state represent the sum of the approved cases in all counties.

704 SOCSECURITY
Social Security Beneficiaries. The total number of Social Security beneficiaries and dependents of Old-Age, Survivors and Disability Insurance including beneficiaries and dependents of retirement benefits (retired workers, wives and husbands, children), survivor benefits (widows and widowers, children), and disability benefits (disabled workers, wives and husbands and children) in current-payment status as of December. The objectives of the program are to replace part of the earnings lost due to retirement, disability or death. Those whose benefits were withheld (primarily because of earnings in excess of the exempt amounts) are excluded. Special age-72 beneficiaries are included. In 1984 and 1985, June is shown because December data were not available. In 1986 data are based on a ten percent sample. The county designation is that of the representative payee, not necessarily that of the beneficiary. Prior to 1988, data for the state reflect the sum of the counties. Beginning in 1988, controlled random rounding of county data is used to avoid disclosure. The rounding procedure insures that all county figures end in a zero or a five. The sum of the counties does not equal the state data due to the rounding procedure and due to beneficiaries of unknown county in North Carolina. See SOCSECRETIRE (variable 714) and SOCSECDISAB (variable 722).

705 CHILDFOSTER
Children Under County DSS Placement Responsibility. Data represent the unduplicated number of children, including foster children, for whom each county department of social services had placement responsibility on June 30 of the year indicated. Data for North Carolina represent the sum of the counties. The state total counts children placed in more than one county during the year once for each placement county. Therefore, the state total represents a duplicated count.

706 ABUSENEGLECT
Substantiated Reports of Child Abuse and Neglect. The number of substantiated reports of the combined category of child abuse and neglect, unduplicated within county for the state fiscal year. Data for the state represent the sum of the counties. Other published

data which are unduplicated with respect to the state may differ due to reports in more than one county. See ABUSE (variable 715) and NEGLECT (variable 716).

708 DAYCARECEN
Licensed Child Day Care Facilities. The number of licensed child day care facilities as of December. Included are licensed day care centers and licensed large day care homes serving 6 to 15 children. Large day care homes came into existence July, 1988. Data before that time include day care centers licensed to care for 6 or more children. Registered small day care homes are excluded from this count.

709 DAYCARECAP
Licensed Capacity of Child Day Care Facilities. The number of slots in child day care facilities as of December. Included are the capacities of licensed day care centers and licensed large day care homes serving 6 to 15 children. Capacities of registered small family day care homes are excluded from this count.

710 MEDICAID
Unduplicated Count of Medicaid Eligibles. An eligible is defined as a person who receives a Medicaid identification card authorizing Medicaid coverage for any portion of the state fiscal year. Eligibles are unduplicated with respect to the state for the fiscal year. An eligible is counted only in the last county of residence.

711 MEDICARE65HM
Medicare Enrollees Age 65 and Up with Hospital and/or Medical. The number of persons age 65 and over with medicare hospital insurance only or medical insurance only or both hospital and medical coverage simultaneously as of July 1. The objective of this federally administered insurance program is to provide hospital protection for covered services and/or medical insurance protection for covered services to persons age 65 or above. The beneficiary's county of residence is based on the most recently reported mailing address in the master enrollment record file. The mailing address is not necessarily an actual place of residence since beneficiaries may have their checks mailed to a post office or to a representative payee in another state or county. The sum of the counties does not equal the state since persons whose mailing addresses do not permit identification of county of residence are included in figures for the state. See MEDICARE65H (variable 719), MEDICARE65M (variable 720), and MEDICAREDH (variable 721).

712 VRTOTCLOSED
Vocational Rehabilitation Closed Cases. The number of vocational rehabilitation cases closed during the state fiscal year. Cases are closed through rehabilitation of the client, when a determination is made that suitable employment cannot be achieved, or when employment has resulted without benefit derived from Vocational Rehabilitation Services. See VRREHABED (variable 713).

713 VRREHABED
Vocational Rehabilitation Cases Rehabilitated. The number of vocational rehabilitation cases rehabilitated during the state fiscal year. Individuals are determined to be rehabilitated, when they have been, at a minimum: (a) provided an evaluation of rehabilitation potential, and counseling and guidance as essential vocational rehabilitation services, (b) provided appropriate vocational rehabilitation services in accordance with the individualized written rehabilitation program, and (c) determined to have achieved a suitable employment objective which has been maintained for a period of not less than sixty days. See VRTOTCLOSED (variable 712).

714 SOCSECRETIRE
Social Security Retired Worker Beneficiaries. The number of retired workers age 62 and over who have worked the required number of years under Social Security, and are receiving a monthly retirement insurance benefit in current-payment status as of December. The objectives of the program are to replace part of the earnings lost due to retirement. Those whose benefits were withheld (primarily because of earnings in excess of the exempt amounts) are excluded. Special age-72 beneficiaries are included. The county designation is that of the representative payee, not necessarily that of the beneficiary. In 1986 data are based on a ten percent sample. Prior to 1988, data for the state reflect the sum of the counties. Beginning in 1988, controlled random rounding of county data is used to avoid disclosure. The rounding procedure insures that all county figures end in a zero or a five. The sum of the counties does not equal the state data due to the rounding procedure and due to beneficiaries of unknown county in North Carolina.

715 ABUSE
Substantiated Reports of Child Abuse. The number of substantiated reports of the category of child abuse, unduplicated within county for the state fiscal year. Data for the state represent the sum of the counties. Other published data which are unduplicated with respect to the state may differ due to reports in more than one county. See ABUSENEGLECT (variable 706) and NEGLECT (variable 716).

716 NEGLECT
Substantiated Reports of Child Neglect. The number of substantiated reports of the category of child neglect, unduplicated within county for the state fiscal year. Data for the state represent the sum of the counties. Other published data which are unduplicated with respect to the state may differ due to reports in more than one county. See ABUSENEGLECT (variable 706) and ABUSE (variable 715).

717 DAYCARESUBSL
Child Day Care Slots Approved for Purchase of Care. The number of slots in day care centers and homes approved for purchase of care as of December. Included are the capacities of approved child day care centers, approved large day care homes and approved small family day care homes.

718 DAYCARESUBCH
Children in Subsidized Day Care. The average monthly number of children in subsidized day care during the state fiscal year. Data are provided through the Division of Social Services and are not shown for a number of counties that use state contracts rather than day care arrangements made by the county department of social services to provide day care services. Data for the state represent the sum of the average monthly recipients in all counties.

719 MEDICARE65H
Medicare Enrollees Age 65 and Up with Hospital Only. The number of persons age 65 and over with only Medicare Hospital Insurance (HI) as of July 1. The objective of this federally administered insurance program is to provide hospital protection for covered services to persons age 65 or above. Hospital insurance provides basic protection against the cost of inpatient hospital care, post hospital skilled nursing facility care, home health care and hospice care. The beneficiary's county of residence is based on the most recently reported mailing address in the master enrollment record file. The mailing address is not necessarily an actual place of residence since beneficiaries may have their checks mailed to a post office or to a representative payee in another state or county. The sum of the counties does not equal the state since persons whose mailing addresses do not permit identification of county of residence are included in figures for the state.

720 MEDICARE65M
Medicare Enrollees Age 65 and Up with Medical Only. The number of persons age 65 and over with only Medicare Supplementary Medical Insurance (SMI) as of July 1. The objective of this federally administered insurance program is to provide medical insurance protection for covered services to persons age 65 or above. Medical insurance provides protection against the cost of physicians' services, medical services and supplies, home health care services, outpatient hospital services and therapy and other services. See MEDICARE65H (variable 719).

721 MEDICAREDH
Medicare Enrollees Disabled with Hospital Only. The number of disabled persons with only Medicare Hospital Insurance as of July 1. The objective of this federally administered insurance program is to provide hospital protection for covered services to disabled persons. See MEDICARE65H (variable 719).

722 SOCSECDISAB
Social Security Disabled Worker Beneficiaries. The number of disabled workers under age 65 who have worked for a sufficient time period to be insured, and are receiving a monthly disability insurance benefit in current-payment status as of December. The objectives of the program are to replace part of the earnings lost due to a physical or mental impairment severe enough to prevent a person from working. Those whose benefits were withheld (primarily because of earnings in excess of the exempt amounts) are excluded. Prior to 1988, data for the state reflect the sum of the counties. Beginning in 1988, controlled random rounding of county data is used to avoid disclosure. The rounding procedure insures that all county figures end in a zero or a five. The sum of the counties does not equal the state data due to the rounding procedure and due to beneficiaries of unknown county in North Carolina.

723 SPECASSTREST
Rest Home Recipients of Special Assistance. The average monthly number of persons during the state fiscal year who are recipients of this program of financial assistance for people who are age 65 or older or permanently and totally disabled, need rest-home care, and are financially eligible. "Certain disabled persons" from age 18 to 65 who are defined by the state to be disabled and eligible for state county special assistance are NOT included in this count. If more than one check is issued during a month, the recipient is counted again for each check issued. Data for the state represent the sum of the average monthly recipients in all counties.

732 SSIFEDAGED
Aged Recipients of Federally Administered SSI. The number of aged persons who received a federally administered Supplemental Security Income (SSI) payment during December. The program objective is to assure a minimum level of income to persons who have attained age 65 and whose income and resources are below specified levels. This program replaced the earlier program called Old-Age Assistance. The sum of the counties does not always equal the data for North Carolina due to controlled random rounding of county data.

733 SSIFEDBLIND
Blind Recipients of Federally Administered SSI. The number of blind children and adults who received a federally administered Supplemental Security Income (SSI) payment during December. The program objective is to assure a minimum level of income to children and adults who are blind and whose income and resources are below specified levels. This program replaced the earlier program called Aid to the Blind. The sum of the counties does not always equal the data for North Carolina due to controlled random rounding of county data.

734 SSIFEDDISAB
Disabled Recipients of Federally Administered SSI. The number of disabled children and adults who received a federally administered Supplemental Security Income (SSI) payment during December. The program objective is to assure a minimum level of income to children and adults who are disabled and whose income and resources are below specified levels. This program replaced the earlier program called Aid to the Permanently and Totally Disabled. The sum of the counties does not always equal the data for North Carolina due to controlled random rounding of county data.

901 AVEDAILYATT
Public School Final Average Daily Attendance. Attendance is the presence of a student on days when school is in session. A student is counted as present only when he is actually at school, present at another activity sponsored by the school as part of the school's program, or personally supervised by a member of the staff. The total number of days of attendance for all students divided by the total number of school days in the school year gives the final average daily attendance (ADA). Listed under the ending year of the school year.

905 PUBHISCHENRO
Public High School Final Enrollment. Enrollment represents pupils registered in grades 9 - 12 in the state's public schools at the end of the school year. Once a pupil is initially counted in the enrollment figure, he/she remains in that count throughout the school year. Students transferring to the North Carolina public school system from another state and non-public school students entering the public schools are added to enrollment; however it is not reduced by transfers, withdrawals, deaths, or midyear graduations. The end of the year enrollment thus shows a higher count than the number of students in actual membership. This information comes from the Principal's Monthly Report completed by each school in each local education agency. Listed under the ending year of the school year.

906 NONPUBSCHENR
Non-Public School Enrollment. Non-public school enrollment data are as of the first school day of October of the school year and include students in grades K - 12. Enrollment excludes students in special schools or home schools, except for years 1986 and 1987, which include home schools. Home schools are non-public schools in which one or more children of not more than two families or households receive academic instruction from parents or legal guardians, or a member of either household. Listed under the beginning year of the school year.

912 PUBHISCHGRAD
Public High School Graduates. Persons graduating from public high school. Listed under the ending year of the school year.

923 PUBSCHEXPEND
Public School Expenditures ($000s). Total expenditures for a fiscal year include current expenditures connected with the daily operation of all public schools in the state. (Excluded are capital expenditures for new buildings and grounds, existing building renovations, and miscellaneous equipment purchases, as are community services programs and inter-/intra-fund transfers.) These figures are referenced by the ending year of the fiscal year. The current expense expenditures are obtained from the Annual Financial Report submitted by local superintendents at the close of each fiscal year. Long-term debts of school systems (debt service) are part of the county budget and controlled by the commissioners of the 100 counties and, therefore, not reported in the Financial Report. The report contains all current expenditures for public kindergarten, elementary, and secondary schools, and special schools for exceptional children. However, expenditures for the Governor Morehead School for the Blind, the North Carolina Schools for the Deaf, the Fort Bragg and Camp Lejeune military base schools, and the Cherokee Indian reservation schools are not included. Funding sources are from state, federal, and local governments. Listed under the ending year of the fiscal year. The sum of counties and the total for North Carolina may differ due to rounding.

924 PUBSCHEXPFED
Public School Expenditures ($000s) Federal. Current expense expenditures for a school year that are connected with the daily operation of all schools in the state and that are spent from the budget of the federal government. Listed under the ending year of the fiscal year. The sum of counties and the total for North Carolina may differ due to rounding. See PUBSCHEXPEND (variable 923).

925 PUBSCHEXPSTA
Public School Expenditures ($000s) State. Current expense expenditures for a school year that are connected with the daily operation of all schools in the state and that are spent from the budget of state government. Listed under the ending year of the fiscal year. The sum of counties and the total for North Carolina may differ due to rounding. See PUBSCHEXPEND (variable 923).

926 PUBSCHEXPLOC
Public School Expenditures ($000s) Local. Current expense expenditures for a school year that are connected with the daily operation of all schools in the state. "Local expenditures are not synonymous with the amounts expended by local county governments. All expenditures not funded by state or federal governments are regarded as "local" expenditures. They include all funds supplied from local governments and other local sources. Listed under the ending year of the fiscal year. The sum of counties and the total for North Carolina may differ due to rounding. See PUBSCHEXPEND (variable 923).

928 FINALMOADM
Final Month Average Daily Membership, Public School. The total school days during a school year that a student's name is on the current roll of a class, regardless of his being present or absent, is the number of days in membership for that student. The sum of the number of days in membership for all students over the school year divided by the number of days school was in session in the last month is the final month average daily membership. Listed under the ending year of the school year.

1101 CRIMEVIOLENT
Violent Crimes Reported. Violent crime is the sum of murders, rapes, robberies, and aggravated assaults reported to law enforcement according to the Uniform Crime Reporting (UCR) System. The UCR is a voluntary reporting system covering approximately 400 jurisdictions on a monthly basis. In addition to county sheriff's departments and police departments, state law enforcement agencies, such as State Bureau of Investigation, Highway Patrol, State Government Security Force, and the Wildlife Protection Division also participate in reporting crime. For murders, rapes, and aggravated assault, one offense is counted for each victim, regardless of the number of offenders involved. For robberies, one offense is counted for each distinct operation which is separate in time and place. The number of victims in any one robbery operation does not determine the number of offenses. For multiple offenses that occur in one crime incident, only the most serious offense is counted. The state total may include crimes reported by a state agency that are not assigned to a county.

1102 CRIMEPROPERT
Property Crimes Reported. Property crime is the sum of burglaries, larcenies, and motor vehicle thefts, reported to law enforcement according to the Uniform Crime Reporting (UCR) System. Arson is excluded from this count. The UCR is a voluntary reporting system covering approximately 400 jurisdictions on a monthly basis. In addition to county sheriff's departments and police

departments, state law enforcement agencies, such as State Bureau of Investigation, Highway Patrol, State Government Security Force, and the Wildlife Protection Division also participate in reporting crime. Generally, one property crime is counted for each act or operation. For multiple offenses that occur in one crime incident, only the most serious offense is counted. The state total may include crimes reported by a state agency that are not assigned to a county.

1103 ARRESTTOTAL
Arrests. These figures represent the total of all persons arrested, cited, or summoned for committing an offense in the offense jurisdiction. The state total may not equal the county sum.

1104 DISTCVD
Civil Cases Filed in District Court. District court civil cases are divided into domestic relations cases, general civil and magistrate appeal/transfer cases. Domestic relations cases are chiefly concerned with annulments, divorces, alimony, custody, visitation, and support of children. General civil cases include all non-domestic relations cases; magistrate appeal/transfer cases include all appeals from cases whose original jurisdiction was with the civil magistrates. The district courts have concurrent jurisdiction with the superior courts in general civil cases, but the district courts are the proper courts for the trial of a civil matter when the amount in controversy is $10,000 or less. Upon the plaintiff's request, a civil case in which the amount in controversy is $1,500 or less, may be designated a small claims case and assigned by the chief district court judge to a magistrate for hearing. Data are for fiscal years.

1105 DISTCR
Non-Motor Vehicle Criminal Cases Filed in District Court. Criminal cases include misdemeanors and felony related probable cause hearings. This variable includes all non-motor vehicle cases filed in the district courts during the fiscal year.

1106 SUPCVS
Civil Cases Filed in Superior Court. Civil cases include all filings of civil matters in the superior courts during the fiscal year. The superior courts have concurrent jurisdiction with the district courts in general civil cases. The superior courts are the proper court for the trial of a civil matter when the amount of controversy is $10,000 or greater. The superior court has jurisdiction over appeals from administrative agencies except the Industrial Commission, certain rulings of the Commissioner of Insurance, the Board of Bar Examiners of the North Carolina State Bar, the Board of State Contract Appeals, and the Property Tax Commission. Appeals from these agencies go directly to the North Carolina Court of Appeals.

1107 SUPCRS
Criminal Cases Filed in Superior Court. The number of criminal cases filed in superior court during the fiscal year. See DISTCR (variable 1105).

1108 DISTJUVNEW
District Court Juvenile Matters, Children Before Court for First Time. These are figures for the number of juveniles who appear before the court for the first time during the fiscal year. A juvenile is defined as one who has not reached his or her eighteenth birthday and "is not married, emancipated, or a member of the armed services of the United States."

1109 DISTJUVTOTAL
District Court Juvenile Matters, Total Matters. These data are the total of all conditions alleged in juvenile petitions in the district court during the fiscal year. Offenses include delinquent and undisciplined offenses; conditions include dependent, neglected, and abused matters as well as petitions to terminate parental rights. Delinquent matters include violation of the criminal code, including motor vehicle violations.

1110 INDIGENTEXP
Private Counsel Indigents Expenditures ($). Figures represent the total of expenditures for assigned counsel and guardian ad litem (not including guardian ad litem under the volunteer and conduct program) during the fiscal year. A person is "indigent" if found "financially unable to secure legal representation and to provide all other necessary expenses of representation." An indigent person has a right to state-paid legal representation in the proceedings listed in G.S. 7A-451. Most of the cases of state-paid representation of indigents in the districts with public defenders are handled by the public defender's office; however, in such districts, the court may in certain circumstances - such as existence of a potential conflict of interest - assign private counsel to represent an indigent defendant. A juvenile alleged to be within the jurisdiction of the court has the right to be represented by counsel in all proceedings; and juveniles are conclusively presumed to be indigent and entitled to state-appointed and state-paid counsel. When a petition alleges that a juvenile is abused or neglected, the judge is required to appoint a guardian ad litem, who is usually an attorney and is compensated for his services in the same way as compensation is provided for representation of an indigent. If the guardian ad litem is not an attorney, the judge, in addition, is to appoint an attorney to represent the juvenile's legal interests. And where a juvenile petition alleges that a juvenile is abused, neglected or dependent, the parent has a right to appointed counsel in cases of indigency. The state total and the county sum may differ because of rounding.

1111 COURTFINES
Fines, Fees, and Forfeitures Collected by Courts ($). These figures represent the total of fees, fines, and forfeitures collected by the courts and distributed to counties and municipalities during the fiscal year. As required by the State Constitution, fines, penalties and forfeitures collected by the courts in criminal cases are distributed to the respective counties in which the cases are tried. These funds must be used by the counties for the support of the public schools. A uniform schedule of court costs for civil and criminal cases, comprised of a variety of fees, is set by statute for cases filed in the superior and district courts. Statutes prescribe the distribution of these fees and provide that certain fees shall be devoted to specific uses. Facility and jail fees are distributed to the respective counties and municipalities which furnished the facilities. If the officer who made the arrest or served the process was employed by a municipality, the officer fee is distributed to the municipality; otherwise all officer fees are distributed to the respective counties. The state total and county sum may differ because of rounding.

1112 PRISONPOP
Resident Prison Population. The resident inmate population for misdemeanants and felons as of December 31 listed under the county of conviction (i.e., the county ordering imprisonment). The state total includes inmates whose information about the county ordering imprisonment is incomplete.

1113 PROBENTRY
Probation Entries. Persons entering supervised probation during the calendar year by the county ordering probation. Probationers already under supervision but who received a new case during the year are not counted as new entries. All figures exclude probationers supervised by another state for North Carolina and N.C. clients living in another state. The state total includes probationers whose information about the county ordering probation is incomplete. See PROBATION (variable 139).

1114 PAROLENTRY
Parole Entries. Persons entering supervised parole during the calendar year by the county of conviction (i.e., the county ordering parole). Parolees already under supervision but who received a new case during the year are not counted as new entries. All figures exclude parolees supervised by another state for North Carolina and N.C. clients living in another state. The state total includes parolees whose information about the county ordering parole is incomplete. See PAROLENODUAL (variable 1118).

1115 CRIMEINDEX
Crime Index. The total of seven major offenses used to measure the extent, fluctuation, and distribution of crime. Crime classification presently used in the index are: 1) murder, 2) forcible rape, 3) robbery, 4) aggravated assault, 5) burglary, 6) larceny, 7) motor vehicle theft. Since arson is excluded from property crime, it is also excluded from crime index. The state total may include crimes reported by a state agency that are not assigned to a county. CRIMEINDEX is the sum of CRIMEVIOLENT (variable 1101) and CRIMEPROPERT (variable 1102).

1116 DUALENTRY
Dual Probation and Parole Entries. Persons simultaneously entering both supervised probation and parole during the calendar year by the county of conviction (i.e., the county ordering parole). Persons already under supervision but who received a new case during the year are not counted as new entries. The figures exclude dual parolees/probationers supervised by another state for North Carolina and N.C. clients living in another state. The state total includes persons whose information about the county ordering probation/parole is incomplete. See DUALSUPERVSD (variable 1117).

1117 DUALSUPERVSD
Dual Probation and Parole Population. Persons who are being simultaneously actively supervised by probation and parole are classified as "duals", listed as of December 31 by county of supervision (place of residence). The figures exclude dual parolees/probationers supervised by another state for North Carolina and N.C. clients living in another state. The sum of DUALSUPERVSD (variable 1117) and PAROLENODUAL (variable 1118) is PAROLEWDUALS (variable 138). The state total includes persons whose information about the county of supervision is incomplete.

1118 PAROLENODUAL
Parole Population without Duals. These figures reflect the supervised parole and conditional release population at the end of the calendar year by their place of residence or county of supervision (usually the same as county of conviction). The figures are restricted to those individuals who were "actively supervised", even if clients were on deferred or suspended status (abscondees are included in suspended status). Clients classified as "duals", i.e., those with both a probation and parole sentence, are excluded. Thus PAROLEWDUALS (variable 138) is the sum of PAROLENODUAL (variable 1118) and DUALSUPERVSD (variable 1117). All figures exclude parolees supervised by another state for North Carolina and N.C. clients living in another state. The state total includes some clients unassigned to a particular county due to incomplete information.

1301 LANDSTATEREC
State Outdoor Recreation Acreage. Total acreage of sites operated by state agencies for outdoor recreation use by the general public. Included are the state parks system, historic sites, and wildlife game lands. The agency that operates or manages a park and recreation site usually owns the property. However, the agency may manage the site for outdoor recreation use under an agreement with the site owner, such as a state wildlife game land located on private or commercial property.

1302 LANDFEDREC
Federal Outdoor Recreation Acreage. Total acreage of sites operated by federal agencies for outdoor recreation use by the general public. Includes the national parks, forests, and wildlife refuges.

1303 LANDLOCREC
Local Outdoor Recreation Acreage. Total acreage of sites operated by local park and recreation agencies for outdoor recreation use by the general public. The agency that operates or manages a park and recreation site usually owns the property. However, the agency may manage the site for outdoor recreation use under an agreement with the site owner, such as a local recreation department that manages school-owned athletic fields for use by the general public when school is not in session.

1305 CBPAMUSESTAB
Amusement and Recreation Services Establishments. This figure represents the total number of amusement and recreation services establishments. Amusement and recreation services establishments are contained within SIC (Standard Industrial Classification) code 79. Undercount may result from some amusement and recreation services establishments being included in "Unclassified establishments", typically new businesses, which can not be classified in any major industry group because of insufficient information. See CBPALLESTAB (variable 2101).

1307 WATERTOTUSE
Total Water Use (000,000 gals./day). Average annual rate of withdrawal of fresh and salt water from surface and ground water sources for all uses, by county, in millions of gallons per day. Includes consumptive use and return(ed) flow. Does not include instream uses such as hydroelectric power generation. Derived from a combination of actual data and estimates.

1308 WATERMUNCOM
Municipal and Commercial Water Use (000,000 gals./day). Average annual rate of withdrawal of fresh water from surface and ground water sources by public water supply systems for municipal and commercial uses, by county, in millions of gallons per day. Does not include withdrawals by individual wells which is listed under WATERDOMEST (variable 1312). Derived from a combination of actual data and estimates.

1309 WATERINDUS
Industrial Water Use (000,000 gals./day). Average annual rate of withdrawal of fresh and salt water from surface and ground water sources or purchases from a water supplier for industrial uses including mining, by county, in millions of gallons per day. Includes consumptive use and return(ed) flow. Does not include instream uses such as hydroelectric power generation nor withdrawals for thermoelectric power generation which is listed under a separate category. Derived from a combination of actual data and estimates.

1310 WATERIRRIGAT
Water Use for Irrigation (000,000s gals./day). Average annual rate of withdrawal of fresh water from surface and ground water sources for agricultural and golf course irrigation, by county, in millions of gallons per day. Derived from estimates.

1311 WATERTHERMEL
Thermoelectric Power Generation Water Use (000,000 gals./day). Average annual rate of withdrawal of fresh and salt water from surface and ground water sources for thermoelectric power generation uses, primarily for condenser cooling, by county, in millions of gallons per day. Includes consumptive use and return(ed) flow. Does not include instream uses such as hydroelectric power generation. Derived from a combination of actual data and estimates.

1312 WATERDOMEST
Domestic Water Use (000,000 gals./day). Average annual rate of withdrawal of fresh water by individual wells for domestic uses, by county, in millions of gallons per day. Derived from estimates.

1313 WATERLIVESTK
Livestock Water Use (000,000 gals./day). Average annual rate of withdrawal of fresh water from surface and ground water sources for watering livestock, by county, in millions of gallons per day. Derived from estimates.

1316 HAZGENERATED
Hazardous Waste Generated (000 lbs.). Data derived from companies generating 1,000 kilograms (2200 pounds) of hazardous waste in any one given month of a calendar year. These companies are required to submit an annual report to the Department of Environment, Health, and Natural Resources, Division of Solid Waste Management, Hazardous Waste Management Section. Included in some counties are electroplating waste water and clean up and/or remediation waste data. Increase or decrease in quantities of waste generated in any given year may result from closing or opening of manufacturing plants. Data for 1988 exclude waste water. County sums differ from state totals due to rounding.

1317 HAZHANDLED
Hazardous Waste Handled (000 lbs.). Data derived from companies which treat, store or dispose of either on-site or off-site commercial or non-commercial hazardous waste must complete an annual report. These handlers must be permitted or have interim status. Increase or decrease in quantities of waste handled in any given year may result from closing or opening of manufacturing plants. Wastes received from out of state are included in the appropriate counties. County sums differ from state totals due to rounding.

1321 EMITPARTAREA
Particulate Emissions from Area Sources (Tons). An area source is defined as a source that emits less than 100 tons per year of particulate, sulfur dioxide, nitrogen oxides, reactive volatile organic compounds, or carbon monoxide. Area sources are typically aggregations of individual sources that are too small to be defined as point sources in a specific geographic area. Area sources usually include all mobile sources and any stationary sources too small, difficult, or numerous to classify as point sources. State totals represent the total tons of particulate emissions from all county area sources.

1322 EMITPARTPT
Particulate Emissions from Point Sources (Tons). This measure represents air particulate emissions in tons per year for each county from major point sources. The Title 40 Code of Federal Regulations, section 51.322 defines a major point source as follows: any facility that actually emits a total of 907 metric tons (1000 tons) or more per year of the pollutant carbon monoxide or a total of 90.7 metric tons (100 tons) or more per year of any one of the pollutants particulates, sulfur dioxide, hydrocarbons, and nitrogen oxides. Examples of the facilities are utility boilers, pulp and paper plants, acid plants, large chemical plants, large furniture plants, large textile mills, etc. Variations in county totals from year to year are due to inactive facilities deleted, new facilities added, control equipment added or changed, process changed, increase or decrease in production and changed method of application to more efficient method. State totals represent the total tons of particulate pollutants from all county point sources.

1323 EMITSULFAREA
Sulfur Dioxide Emissions from Area Sources (Tons). Represents air sulfur dioxide emissions in tons per year from area sources in each county. State totals represent the total tons of sulfur dioxide emissions from all county area sources. See EMITPARTAREA (variable 1321).

1324 EMITSULFPT
Sulfur Dioxide Emissions from Point Sources (Tons). Represents air sulfur dioxide emissions in tons per year for each county from major point sources. State totals represent the total tons of sulfur dioxide emissions from all county point sources. See EMITPARTPT (variable 1322).

1325 EMITNITRAREA
Nitrogen Oxides Emissions from Area Sources (Tons). Represents air nitrogen oxides emissions in tons per year from area sources in each county. State totals represent the total tons of nitrogen oxides emissions from all county area sources. See EMITPARTAREA (variable 1321).

1326 EMITNITRPT
Nitrogen Oxides Emissions from Point Sources (Tons). Represents air nitrogen oxides emissions in tons per year for each county from major point sources. State totals represent the total tons of nitrogen oxide emissions from all county point sources. See EMITPARTPT (variable 1322).

1327 EMITORGAREA
Volatile Organic Compound Emissions from Area Sources (Tons). Represents air volatile organic compounds (hydrocarbons) emissions from area sources in each county. State totals represent the total tons of volatile organic compounds emissions from all county area sources. See EMITPARTAREA (variable 1321).

1328 EMITORGPT
Volatile Organic Compound Emissions from Point Sources (Tons). Represents air volatile organic compounds (hydrocarbons) emissions in tons per year for each county from major point sources. State totals represent the total tons of volatile organic compounds emissions from all county point sources. See EMITPARTPT (variable 1322).

1329 EMITCARBAREA
Carbon Monoxide Emissions from Area Sources (Tons). Represents air carbon monoxide emissions in tons per year from area sources in each county. State totals represent the total tons of carbon monoxide emissions from all county area sources. See EMITPARTAREA (variable 1321).

1330 EMITCARBPT
Carbon Monoxide Emissions from Point Sources (Tons). Represents air carbon monoxide emissions in tons per year for each county from major point sources. State totals represent the total tons of carbon monoxide emissions from all county point sources. See EMITPARTPT (variable 1322).

1701 EXPSCHCAPOUT
Expenditure by Object: Public School Capital Outlay ($). Expenditure by object is a breakdown of local government expenditure into categories of salaries and wages, other operating expenses, capital outlay, and other (which includes intergovernmental expenditures not covered elsewhere). Public school current expense and public school capital outlay are provided as separate objects. These six object categories sum to the total of all expenditures, TOTALEXP (variable 5127). EXPSCHCAPOUT represents a single item on the annual financial information report form under "intergovernmental expenditures: public school capital outlay". These expenditures by the county are paid to the local school district authority. Listed under the ending year of the fiscal year. See also TOTALEXP (variable 5127).

1702 EXPSCHCURENT
Expenditure by Object: Public School Current Expense ($). These data represent a single item on the annual financial information report form under "intergovernmental expenditures: public school current expenditures". These expenditures by the county are paid to the local school district authority. See EXPSCHCAPOUT (variable 1701) and TOTALEXP (variable 5127). Listed under the ending year of the fiscal year.

1703 SOCSERVEXP
Intergovernmental Expenditures for Social Services ($). Intergovenmental expenditures to the state for disbursements, consisting of the county share of medicaid and AFDC payments and special assistance to adults. Listed under the ending year of the fiscal year. See TOTALEXP (variable 5127).

1704 SCHOOLEXP
Intergovernmental Expenditures for Public Schools ($). Intergovernmental expenditures by the county for public school current expense and capital outlay. Listed under the ending year of the fiscal year. See TOTALEXP (variable 5127).

1705 COMCOLEXP
Intergovernmental Expenditures for Community Colleges ($). Intergovernmental expenditures by the county for community college current expense and capital outlay. Listed under the ending year of the fiscal year. See TOTALEXP (variable 5127).

1706 REVALYEAR
Latest Year of Revaluation. Effective date of the most recent completely new reappraisal on real property to date is January 1 of the year indicated. Revaluations occur on a county-wide basis and affect the municipalities and special tax districts within the county as well as the county itself. Corresponds to "year of latest revaluation" in table 72, in the 1988 edition of "Statistics of Taxation," N.C. Department of Revenue, Tax Research Division.

1707 EXCISESTAMP

Excise Stamp Tax on Conveyances ($). Amount of tax collected by the county for the fiscal year from real property transfer tax, also known as excise stamp tax on real property conveyances. Figures are rounded to nearest dollar. Corresponds to "Excise stamp tax on conveyances" in table 73, in the 1988 edition of "Statistics of Taxation," N.C. Department of Revenue, Tax Research Division. Listed under the ending year of the fiscal year.

1708 TAXABLERTRNS

Taxable Income Tax Returns. Count of taxable returns, prepared from unedited data obtained by the Department of Revenue's processing of individual income tax returns. The figures reflect the number of individual taxpayers for the tax year. The figures shown for North Carolina include nonresident taxpayers and taxpayers whose county of residence is unknown.

1709 NONTXBLRTRNS

Nontaxable Income Tax Returns. Complete count of nontaxable returns, prepared from unedited data obtained by the Department of Revenue's processing of individual income tax returns. The figures reflect the number of individual taxpayers for the tax year. The figures shown for North Carolina include nonresident taxpayers and taxpayers whose county of residence is unknown.

1710 CNTYEMPL

County Government October Employment--Census of Governments. This figure gives the total number of individuals on payroll of the county government for October of the year referenced. Employment refers to all persons gainfully employed by and performing services for a county government. Employees include all persons paid for personal services performed, including persons paid from federally funded programs, paid elected officials, persons in a paid leave status, and persons paid on a "per meeting", annual, semiannual, or quarterly basis. Unpaid officials, pensioners, persons whose work is performed on a free basis, and contractors and their employees are excluded. The total includes both full-time and part-time employees on the payroll for October of the year referenced, including school systems. If no data are reported by the county government, a missing value is shown. The state figure includes estimates for counties about which data were unavailable. For the 1982 census, data for Durham, New Hanover, Orange, and Wake counties are as of October 1981.

1711 CNTYOCTPAY

County Government October Payroll--Census of Governments ($000). As of October of the year referenced, the total payroll of the county government is given in thousands of dollars. It is the payroll for the employees counted in CNTYEMPL (variable 1710). The state figure includes estimates for counties about which data were unavailable. For the 1982 census, data for Durham, New Hanover, Orange, and Wake counties are as of October 1981.

1712 TOTREVCEN

County Government Revenue--Census of Governments ($000s). Total revenue for the fiscal year, including intergovernmental revenue from federal and state sources as well as revenue from county sources (primarily tax revenue). Also includes utility, liquor store, and employee retirement revenue. Revenue items include all amounts of money received by a government and its agencies (net of correcting transactions such as recoveries of refunds), with the exception of amounts for debt issuance and retirement and for loan and investment, agency, and private transactions. The state total represents the sum of revenue for all reporting counties. Since the state sum was rounded after adding, it may differ from the sum of the rounded county figures. The 1987 state figure includes an estimate for Hertford County. These data are obtained in part from the annual financial information report forms submitted by local governments. However, the Census of Governments also includes data from additional sources on long-term debt, school and higher education finances, ABC board finances, and industrial revenue debt. Because of this, TOTRECCEN (variable 1712) tends to be larger than the total county revenues reported in TOTALREV (variable 5112). Listed under ending year of fiscal year.

1713 TOTEXPCEN

County Government Expenditure--Census of Governments ($000s). Total expenditures for the fiscal year, including general expenditure (expenditure for education, welfare, hospitals, health, highways, police protection, correction, natural resources and parks and recreation, sewerage and sanitation, interest on general debt, and capital outlay) as well as utility, liquor store, and employee retirement expenditure. Expenditure items include all amounts of money paid out by a government and its agencies (net of correcting transactions such as recoveries or refunds), with the exception of amounts for debt issuance and retirement and for loan and investment, agency, and private transactions. The state total represents the sum of expenditure for all reporting counties. The 1987 state figure includes an estimate for Hertford County. These data are obtained in part from the annual financial information report forms submitted by local governments. However, the Census of Governments also includes data from additional sources on long-term debt, school and higher education finances, ABC board finances, and industrial revenue debt. Because of this, TOTEXPCEN (variable 1713) tends to be larger than the total county expenditures reported in TOTALEXP (variable 5127). Listed under ending year of fiscal year.

1714 POPVOTING

Voting Age Population. Number of persons age 18 and over. The figure is an estimate as of July 1.

1715 PCTVOTAGE

Percent of Voting Age Population Voting in the Presidential Election. Computed using the number of votes for president, VOTESFORPR (variable 1722) as the numerator, and the estimated voting age population, POPVOTING (variable 1714) as the denominator.

1717 PCTVOTREG

Percent of Registered Voters Voting in the Presidential Election. Computed using the number of votes for president, VOTESFORPR (variable 1722) as the numerator, and the number of registered voters, REGVOTERS (variable 125) as the denominator.

1718 REGISWHITE
White Registered Voters. The number of registered voters of White race, as reported in "Registration Statistics Part II," a document published annually by the State Board of Elections, usually in October.

1719 REGISBLACK
Black Registered Voters. The number of registered voters of Black race, as reported in "Registration Statistics Part II," a document published annually by the State Board of Elections, usually in October.

1720 REGISOTHER
Other Registered Voters. The number of registered voters of race other than White or Black, as reported in "Registration Statistics Part II," a document published annually by the State Board of Elections, usually in October. Combines the columns labeled "Indian" and "Other" in that document.

1721 PRECINCTS
Voting Precincts. The number of voting precincts reported by county in "Registration Statistics Part I," a document published annually by the State Board of Elections, usually in October.

1722 VOTESFORPR
Votes Cast for President. The total number of votes cast for president in the general election, as certified and reported by the State Board of Elections.

1723 VOTESREPPRES
Votes Cast for Republican Presidential Candidate. The total number of votes cast for the Republican candidate for president in the general election, as certified and reported by the State Board of Elections.

1724 VOTESDEMPRES
Votes Cast for Democratic Presidential Candidate. The total number of votes cast for the Democratic candidate for president in the general election, as certified and reported by the State Board of Elections.

1725 VOTESREPGOV
Votes Cast for Republican Gubernatorial Candidate. The total number of votes cast for the Republican candidate for governor in the general election, as certified and reported by the State Board of Elections.

1726 VOTESDEMGOV
Votes Cast for Democratic Gubernatorial Candidate. The total number of votes cast for the Democratic candidate for governor in the general election, as certified and reported by the State Board of Elections.

1901 CHILDLABCERT
Employment Certificates Issued to 14-15 Year Olds. General Statutes prohibit employers from employing any youth under 18 years of age without a youth employment certificate unless specifically exempted. Youth employment certificates are issued by county departments of social services in each of the 100 counties. A statewide total based upon the sum of the counties is also prepared. Undercounts result both from the exemptions from the requirement to obtain certificates and from non-compliance by employers by hiring youths without certificates. Figures are cumulative totals of all certificates issued during the calendar year.

1902 AVANNEMPL
Average Annual Employment. This employment figure, which was estimated to represent most of the total nonagricultural employment in the state (92 percent in 1988), comes from data submitted quarterly by all employers who are subject to the N.C. Employment Security Law, i.e., "insured employment". Each quarter, employers report the number of persons on payroll for the pay period which includes the 12th of the month (for each month of the quarter). These monthly figures include part-time as well as full-time workers, executives, and production workers. Thus, the monthly counts do not represent the number of different persons employed during the month. This series represents the average of all 4 quarterly reports submitted for the calendar year. Excluded from coverage are those who earn less than $1,000 in a calendar year quarter. The series is by place of work. An employer having several units located in different counties may report all workers in the county in which the parent office is located. Regulations provide for minimizing this misreporting when the employer meets specific size criteria. A special grouping is provided for some firms which report on a statewide basis, i.e., when no specific county is applicable. For this reason, the state total differs from the sum of counties. These data are released under the ES202 program. This series is used with ANNWAGES (variable 1903) to calculate average annual wages (variable 1905).

1903 ANNWAGES
Annual Wages ($). Total annual wages paid to covered workers for services performed during the calendar year. Covered workers are those insured under the North Carolina Unemployment Insurance laws, and who earned wages from an employer. Sometimes called "gross wages" or simply "wages", these figures are annual averages of monthly payroll data, which are reported quarterly by all employers who are subject to the N.C. Employment Security law. Monthly data are reported for the pay-period which normally includes the 12th of the month. Bonuses paid are included, as are the cash value of items such as meals, lodging, tips, and other gratuities to the extent of state laws and regulations provided they are furnished with the job. Excluded are those earning less than $1,000 in a calendar year quarter. The series is by place-of-work. An employer having several units located in different counties may report all wages in the county in which the parent office is located. Regulations provide for minimizing this misreporting when the employer meets specific size criteria. A special grouping is provided for some firms which report on a statewide basis, i.e., when no specific county is applicable. For this reason, the state total differs from the sum of counties. These data are released under the ES202 program. Although annual wage payments above a critical value ($11,000 per employee in 1990) are not taxed under the

Employment Security Law, they are included in the total wage figure. See AVANNEMP (variable 1902) and AVANNWPERW (variable 1905).

1905 AVANNWAGE
Average Annual Wage per Worker ($). This figure represents the total of all wages paid to covered workers for services performed during the calendar year divided by the average annual number of employees for the year. Covered workers are those insured under the N.C. Unemployment Insurance Laws and who earned wages from an employer. These average earnings per worker should be considered merely as indicators of wage trends rather than actual wage rates because (1) the wages, but not employment, of all persons on payroll are reflected, (2) a number of workers are not employed the whole year, and (3) certain plants may stand idle a portion of the year. The number of persons on the employer's payroll for the pay period of a particular month includes part-time as well as full-time workers, executives, and production workers. Thus, the denominator of the wage rate does not represent the number of different persons employed during the year. However, wage data in the numerator include all wage payments for covered employees as well as bonuses, commissions, and incentive earnings. Although annual wage payments above a critical value ($11,100 per employee in 1990) are not taxed under the Employment Security Law, they are included in the total wage figures. These data are released under the ES202 program. The series is by place of work. See AVANNEMPL (variable 1902) and ANNWAGES (variable 1903).

2101 CBPALLESTAB
Establishments, All Industries--CBP. This figure represents the total number of establishments. An establishment is a single physical location where business is conducted or where services or industrial operations are performed. Establishments are assigned county classifications on the basis of their physical location. Locations for both single and multi-location firms determined to be active anytime during the year (presence of payroll in any quarter) are counted as an establishment. In years prior to 1983, establishment counts were based on the determination of active status in the fourth quarter. As of 1984, the universe was expanded to include non-profit establishments and government-operated liquor stores/warehouses. Historically, industry classifications have been based on the 1972 SIC manual (including the 1977 supplement for data years 1981 through 1987). Beginning with 1988 data, industry classifications are based on the 1987 edition of the SIC manual. This does not affect CBPALLESTAB, but it does affect any County Business Patterns data series for a particular kind of business. Employment and payroll figures are withheld if the data might disclose information about individual employers. However, total number of establishments figures are never withheld. State totals for County Business Patterns data may differ from the sum of counties because state totals include establishments that were not allocated to a particular county due to employers not having a fixed location or due to unknown county locations. Annual state level data for County Business Patterns are revised at the time a U.S. Summary is published. State totals shown for this series are unrevised.

2102 CBPRETAILEST
Retail Establishments--CBP. This figure represents the total number of retail establishments. Retail establishments are contained within SIC (Standard Industrial Classification) codes 52-59. Some retail establishments could be included in "Unclassified establishments", typically new businesses, which can not be classified in any major industry group because of insufficient information. See CBPALLESTAB (variable 2101).

2103 CBPWHOESTAB
Wholesale Establishments--CBP. This figure represents the total number of wholesale establishments. Wholesale establishment data are contained within SIC (Standard Industrial Classification) codes 50-51. Some wholesale establishments could be included in "Unclassified establishments", typically new businesses, which can not be classified in any major industry group because of insufficient information. See CBPALLESTAB (variable 2101).

2104 CBPMANUFEST
Manufacturing Establishments--CBP. This figure represents the total number of manufacturing establishments. Manufacturing establishment data are contained within SIC (Standard Industrial Classification) codes 20-39. Some manufacturing establishments could be included in "Unclassified establishments" typically new businesses, which can not be classified in any major industry group because of insufficient information. See CBPALLESTAB (variable 2101).

2105 CBPCONSTEST
Construction Establishments--CBP. This figure represents the total number of construction establishments. Construction establishment data are contained within SIC (Standard Industrial Classification) codes 15-17. Some construction establishments could be included in "Unclassified establishments", typically new businesses, which can not be classified in any major industry group because of insufficient information. See CPBALLESTAB (variable 2101).

2106 CBPSVCESTAB
Service Establishments--CBP. This figure represents the total number of service establishments. Service establishment data are contained within SIC (Standard Industrial Classification) codes 70-89. Some service establishments could be included in "Unclassified establishments", typically new businesses, which can not be classified in any major industry group because of insufficient information. See CBPALLESTAB (variable 2101).

2107 CBPFIREESTAB
Finance, Insurance, and Real Estate Establishments--CBP. This figure represents the total number of finance, insurance, and real estate establishments. Finance, insurance, and real estate establishment data are contained within SIC (Standard Industrial Classification) codes 60-67. Some finance, insurance, and real estate establishments could be included in "Unclassified establishments", typically new businesses, which can not be classified in any major industry group because of insufficient information. See CBPALLESTAB (variable 2101).

2108 CBPRETAILEMP
Retail Employment--CBP. All wage and salary employees of the retail industry employed during the mid-March pay period, by county of employment. The retail data include SIC codes 52-59. See CBPEMPMAR12 (variable 112) and CBPALLESTAB (variable 2101).

2109 CBPWHOEMP
Wholesale Employment--CBP. All wage and salary employees of the wholesale industry employed during the mid-March pay period, by county of employment. The wholesale data include SIC codes 50-51. See CBPEMPMAR12 (variable 112) and CBPALLESTAB (variable 2101).

2110 CBPMANUFEMP
Manufacturing Employment--CBP. All wage and salary employees of the manufacturing industry employed during the mid-March pay period, by county of employment. The manufacturing data include SIC codes 20-39. See CBPEMPMAR12 (variable 112) and CBPALLESTAB (variable 2101).

2111 CBPCONSTEMP
Construction Employment--CBP. All wage and salary employees of the construction industry employed during the mid-March pay period, by county of employment. The construction data include SIC codes 15-17. See CBPEMPMAR12 (variable 112) and CBPALLESTAB (variable 2101).

2112 CBPSVCEMP
Service Employment--CBP. All wage and salary employees of the service industry employed during the mid-March pay period, by county of employment. The construction data include SIC codes 70-89. See CBPEMPMAR12 (variable 112) and CBPALLESTAB (variable 2101).

2113 CBPFIREEMP
Finance, Insurance, and Real Estate Employment--CBP. All wage and salary employees of the finance/insurance/real estate industry employed during the mid-March pay period, by county of employment. The finance/insurance/real estate employment data include SIC codes 60-67. See CBPEMPMAR12 (variable 112) and CBPALLESTAB (variable 2101).

2114 CBPANNPAY
Annual Payroll--CBP ($000s). Annual payroll consists of payroll paid to persons employed at any time during the calendar year. Payroll includes all forms of compensation which are subject to income tax withholding: the combined amount of wages paid, tips reported, and other compensation including salaries, vacation allowances, bonuses, commissions, sick-leave pay, and the value of payments in kind (such as free meals and lodging) paid to employees before deduction for Social Security, income tax, insurance, union dues, etc. Excluded are pensions, annuities, third-party sick pay, and supplemental unemployment compensation benefits. For corporations, total annual payroll includes compensation paid to officers and executives; for unincorporated businesses, it does not include profit or other compensation of proprietors or partners. For single-establishments firms, annual payroll is the sum of the four quarters of total compensation. For multi-establishment firms, annual payroll data are reported on an establishment basis in the 1987 Annual Company Organization Survey. State totals for County Business Patterns data may differ from the sum of counties because state totals contain data from establishments that were not allocated to a particular county due to employers not having a fixed location or due to unknown county locations. Also, annual state level data for County Business Patterns are revised at the time a U.S. Summary is published. None of the subsequent revisions to state totals are included in the state figures. See CBPALLESTAB (variable 2101).

2115 CBPANNRETPAY
Annual Retail Payroll--CBP ($000s). These data represent the total annual payroll of retail establishments located in the county. The retail industry data include SIC codes 52-59. See CBPANNPAY (variable 2114) and CBPALLESTAB (variable 2101).

2116 CBPANNWHOPAY
Annual Wholesale Payroll--CBP ($000s). These data represent the total annual payroll of wholesale establishments located in the county. The wholesale industry data include SIC codes 50-51. See CBPANNPAY (variable 2114) and CBPALLESTAB (variable 2101).

2117 CBPANNMANPAY
Annual Manufacturing Payroll--CBP ($000s). These data represent the total annual payroll of manufacturing establishments located in the county. The manufacturing industry data include SIC codes 20-39. See CBPANNPAY (variable 2114) and CBPALLESTAB (variable 2101).

2118 CBPANNCONPAY
Annual Construction Payroll--CBP ($000s). These data represent the total annual payroll of construction establishments located in the county. The construction industry data include SIC codes 15-17. See CBPANNPAY (variable 2114) and CBPALLESTAB (variable 2101).

2119 CBPANNSVCPAY
Annual Service Industry Payroll--CBP ($000s). These data represent the total annual payroll of service establishments located in the county. The service industry data include SIC codes 70-89. See CBPANNPAY (variable 2114) and CBPALLESTAB (variable 2101).

2120 CBPANFIREPAY
Annual Finance, Insurance, and Real Estate Payroll--CBP ($000s). These data represent the total annual payroll of finance, insurance, and real estate establishments located in the county. The finance, insurance, and real estate data include SIC codes 60-67. See CBPANNPAY (variable 2114) and CBPALLESTAB (variable 2101).

2121 CBPFQRETPAY
First Quarter Retail Payroll--CBP ($000s). This measure consists of payroll paid to persons employed at any time during the January through March quarter by retail establishments located in the county. The retail industry data include SIC codes 52-59. See CBPFQPAYROLL (variable 111) and CBPALLESTAB (variable 2101).

2122 CBPFQWHOPAY
First Quarter Wholesale Payroll--CBP ($000s). This measure consists of payroll paid to persons employed at any time during the January through March quarter by wholesale establishments located in the county. The wholesale industry data include SIC codes 50-51. See CBPFQPAYROLL (variable 111) and CBPALLESTAB (variable 2101).

2123 CBPFQMANPAY
First Quarter Manufacturing Payroll--CBP ($000s). This measure consists of payroll paid to persons employed at any time during the January through March quarter by manufacturing establishments located in the county. See CBPFQPAYROLL (variable 111) and CBPALLESTAB (variable 2101).

2124 CBPFQCONPAY
First Quarter Construction Payroll--CBP ($000s). This measure consists of payroll paid to persons employed at any time during the January through March quarter by construction establishments located in the county. The construction industry data include SIC codes 15-17. See CBPFQPAYROLL (variable 111) and CBPALLESTAB (variable 2101).

2125 CBPFQSVCPAY
First Quarter Service Industry Payroll--CBP ($000s). This measure consists of payroll paid to persons employed at any time during the January through March quarter by service establishments located in the county. The service industry data include SIC codes 70-89. See CBPFQPAYROLL (variable 111) and CBPALLESTAB (variable 2101).

2126 CBPFQFIREPAY
First Quarter Finance, Insurance, and Real Estate Payroll--CBP ($000s). This measure consists of payroll paid to persons employed at any time during the January through March quarter by finance, insurance, and real estate establishments located in the county. The finance/insurance/real estate industry data include SIC codes 60-67. See CBPFQPAYROLL (variable 111) and CBPALLESTAB (variable 2101).

2127 TRAVELEXPEND
Travel Expenditures ($000s). Total annual travel expenditures for the state have been estimated using hotel and motel sales and the fact that those sales have been about 16 percent of total travel expenditures in this state for several years. Expenditures are then computed as: hotel-motel sales divided by 0.16. Total travel expenditures for the state were allocated to counties on the basis of their respective shares of hotel and motel sales or, if these were not available because the small number of establishments restricted release of the data, then on the basis of prior allocation, specifically that for 1980. Since this allocation is based only on hotel and motel receipts it does not reflect differences among the counties in recreation and amusement attractions nor in seasonal and vacation rental properties, which in some mountain and coastal counties add considerably to travel activity.

2128 WOMENOWNFIRM
Women-Owned Firms. Data represent the total number of women-owned businesses in existence at any time during the calendar year. The survey gathering those data was based upon the entire firm rather than on establishments of a firm. The data came from the business population that filed IRS form 1040, Schedule C (individual proprietorships); 1065 (partnerships); or 1120S (subchapter S corporations). These were identified from government administrative records. A noncorporate firm was classified as women-owned if the individual owner or at least half of the partners in the reference year were women. To classify as an 1120S corporation, there must be no more than 35 shareholders. However, information was obtained from only 10 shareholders. Their IRS reports were considered to represent the entire corporation. If 50 percent or more of those shares were owned by women, the firm was classified as a women-owned corporation. Data are not comparable between 1982 and 1987 due to the difference in geographic areas covered. 1982 data represent areas with 250 or more women-owned firms. 1987 data represent areas with 100 or more women-owned firms. This series may not be used with other data or total establishments from County Business Patterns.

2129 BOFIRMS
Black-Owned Firms. Data represent the number of businesses owned by Blacks. The survey gathering these data was based upon the entire firm rather than on establishments of a firm. The data came from the business population that filed IRS form 1040, Schedule C (individual proprietorships); 1065 (partnerships); or 1120S (subchapter S corporations). Data are not comparable between 1982 and 1987 due to the difference in geographic areas covered. 1982 data represent areas with 250 or more Black-owned firms. 1987 data represent areas with 100 or more Black-owned firms. This series may not be used with other data on total establishments from County Business Patterns. See WOMENOWNFIRM (variable 2128).

2302 FARMCROPREC
Farm Cash Receipts from All Crops--NCDA ($000s). Farm income amounts for the calendar year are estimated income from tobacco, cotton, peanuts, corn, grain, potatoes, fruits and vegetables, greenhouse and nursery items, hay and other field crops, livestock products, farm forest products and government payments. Farm forest products are not included in crop cash receipts after 1987. Production expenses are not deducted from these amounts. Excluded from these amounts are the value of grain crops used on the farms where produced and crop production kept in inventory and not sold. Determination of farm income amounts is based upon underlying estimates of acreage, yield, percentage of production sold, prices received, and inventory change. Although the federal government frequently revises state level estimates of farm income, the county series is revised only for the year prior to the most recent release. The state series used here agrees with county totals. Users may contact the North Carolina Department of Agriculture for more recently revised state figures.

2303 FARMLVSTKREC
Farm Cash Receipts from Livestock and Livestock Products--NCDA ($000s). Farm income amounts for the calendar year are estimated income from actual sales of livestock products. Income is credited to the county of production, even if marketed, stored, or processed in another county. On-farm consumption is not measured, and production expenses are not deducted. Although the federal government frequently revises state level estimates of farm income, the county series is revised only for the year prior to the most recent release. The state series used here agrees with county totals. Users may contact the North Carolina Department of Agriculture for more recently revised state figures.

2304 FARMGOVPAY
Farm Cash Receipts from Government Payments--NCDA ($000s). Estimates for the calendar year of income from government payments, including both cash payments and payments-in-kind. Includes amount paid by the government under agriculture and conservation programs. Although the federal government frequently revises state level estimates, the county series is revised only for the year prior to the most recent release. Users may contact the North Carolina Department of Agriculture for more recently revised state figures.

2506 VEHINSPECTED
Vehicles Inspected. Number of motor vehicle safety inspections performed during the calendar year.

2507 SCHOOLBUSACC
School Bus Accidents. Number of reportable accidents involving a school bus as determined by the investigating officer's report, which is filed within 24 hours of the accident. Reported by county of occurrence for the fiscal year. See ACCIDENTS (variable 142).

2508 BICYCLEINJUR
Bicyclists Injured. This series represents the number of individuals injured in reportable collisions between a bicycle and a motor vehicle as determined by the investigating officer's report, which is filed within 24 hours of the accident. Injuries include (1) bleeding wounds, distorted members or any condition that required the victim to be carried from the scene, (2) other visible injuries such as bruises, abrasions, swelling, limping, or other painful movement, and (3) complaint of pain, without visible signs of injury; or momentary unconsciousness. Reported by county of occurrence. The count of bicyclists injured excludes bicyclist fatalities, BICYCLEFATAL (variable 2511). The count of bicyclists injured is included in the count of traffic injuries, INJURED (variable 143). See ACCIDENTS (variable 142).

2509 ALCOHOLDRUG
Alcohol or Drug Related Accidents. Number of reportable motor vehicle accidents where the investigating officer indicates that a driver, pedestrian, or bicyclist had been drinking or using drugs. These data are taken from the investigating officer's report, which is filed within 24 hours of the accident. Reported by county of occurrence. See ACCIDENTS (variable 142).

2510 SPEEDEXCESS
Accidents Caused by Exceeding Legal Speed. Number of reportable accidents caused by exceeding legal or safe speed, as determined by the investigating officer's report, which is filed within 24 hours of the accident. Reported by county of occurrence.

2511 BICYCLEFATAL
Bicyclist Fatalities. A bicycle fatality is the death due to injuries of an individual within 30 days from the date of a reportable traffic accident in which he/she was involved as a bicyclist, as determined by the investigating officer's report, which is filed within 24 hours of the accident. Reported by county of occurrence. Effective January 1, 1989, the basis for recording a bicycle fatality was lowered from 90 to 30 days from the date of the accident. In earlier years, the time basis was one year. The count of bicyclist fatalities is included in the [illegible] of traffic fatalities, FATALITIES (variable 144). The count of bicyclists fatalities is excluded from the count of bicyclists injured, BICYCLEINJUR (variable 2508). See ACCIDENTS (variable 142), FATALITIES (variable 144) and BICYCLEINJUR (variable 2508)

2512 MOTORCYCLEIN
Motorcyclists Injured. This series represents the number of motorcyclists injured in reportable traffic accidents involving the motorcycle as determined by the investigating officer's report, which is filed within 24 hours of the accident. Injuries include (1) bleeding wounds, distorted members or any condition that required the victim to be carried from the scene, (2) other visible injuries such as bruises, abrasions, swelling, limping, or other painful movement, and (3) complaint of pain, without visible signs of injury; or momentary unconsciousness. Reported by county of occurrence. The count of motorcyclists injured excludes motorcycle fatalities, MOTORCYCLEFA (variable 2513). The count of motorcyclists injured is included in the count of traffic injuries, INJURED (variable 143). See ACCIDENTS (variable 142).

2513 MOTORCYCLEFA
Motorcyclist Fatalities. A motorcyclist fatality is the death due to injuries of an individual within 30 days from the date of a reportable traffic accident in which he/she was involved as a motorcyclist, as determined by the investigating officer's report, which is filed within 24 hours of the accident. Reported by county of occurrence. Effective January 1, 1989, the basis for recording a motorcycle fatality was lowered from 90 to 30 days from the date of the accident. In earlier years, the time basis was one year. The count of motorcyclist fatalities is included in the count of traffic fatalities, FATALITIES (variable 144). The count of motorcyclist fatalities is excluded from the count of motorcyclists injured, MOTORCYCLEIN (variable 2512). See ACCIDENTS (variable 142), FATALITIES (variable 144) and MOTORCYCLEIN (variable 2512).

2514 SCHBUSAVEMIL
School Bus Average Mileage per Day. All mileage data for school bus transportation is taken from the Annual Pupil Transportation

Reports as submitted by the local school administrative units to the State Department of Public Instruction for the fiscal year. The data are listed under the ending year of the fiscal year. The state's figures represent the sum of county totals. The city school systems are included in their respective counties. These figures reflect the total number of miles traveled by all school buses in operation for the year on a per day basis.

2515 COUNTYOFRES
Worked in County of Residence. Those workers who do not leave their county of residence to work. Tabulations came from a question asked in the decennial census concerning place of work in the week prior to census day. There are two major shortcomings of the commuting data about which users should be aware. First, for 1980 only half of the full twenty percent census sample was utilized to tabulate these data. Therefore, figures in these tabulations may differ from data based on the full sample. Secondly, many workers did not report a place of work in the census. In North Carolina in 1980, 231,970 or 8.7 percent of all employed residents failed to report a place of work. Nonresponse to this particular question allow for the introduction of bias into the data, since the place of work of the nonrespondents has not been observed and may differ from place of work reported by respondents. The state figure represents the number of North Carolina resident workers who did not commute out of the state to work. Both 1970 and 1980 data came from a special census tabulation based on sample data, however, the 1970 data were adjusted to allocate "place of work not reported" counts. Thus, 1970 and 1980 data are not strictly comparable.

2516 OUTCOUNTRES
Worked Outside County of Residence. Those workers who traveled outside their county of residence to work. Tabulations came from a question asked in the decennial census concerning place of work in the week prior to census day. The state figure represents the number of North Carolinians who worked outside the state. Both 1970 and 1980 data came from a special census tabulation based on sample data. The 1970 data were adjusted to allocate "place of work not reported" counts. Thus, 1970 and 1980 data are not strictly comparable. See COUNTYOFRES (variable 2515).

2517 INCOMMUTERS
Workers in County who Reside Outside County. These are counts of workers who commute to work into this county from another county. Tabulations came from a question asked in the decennial census concerning place of work in the week prior to census day. The state figure represents the number of workers in North Carolina who commuted in from other states or countries. Both 1970 and 1980 data came from a special census tabulation based on sample data. The 1970 data were adjusted to allocate "place of work not reported" counts. Thus, 1970 and 1980 data are not strictly comparable. See COUNTYOFRES (variable 2515).

3001 PERSINC
Total Personal Income ($000s) by Place of Residence. The income received by, or on behalf of, all the residents of the area. Includes income received by persons from all sources - from participation in production, from transfer payments, from government and business, and from government interest (which is treated like a transfer payment). Personal income is the sum of wage and salary disbursements, other labor income, proprietors' income with inventory valuation and capital consumption adjustments, rental income of persons with capital consumption adjustment, personal dividend income, personal interest income, and transfer payments, less personal contributions for social insurance. For counting income, persons are defined as individuals, nonprofit institutions, private noninsured welfare funds, and private trust funds. The last three are referred to as "quasi-individuals". Proprietors' income is treated in its entirety as received by individuals. Life insurance carriers and private noninsured pension funds are not counted as persons, but their saving is credited to persons. Personal income is entirely different from money income, which is the measure of income measred by the Census Bureau.

3003 FARMINC
Farm Personal Income ($000s) by Place of Residence. Farm labor and proprietors' income is calculated as total cash receipts from farm marketings, government payments, imputed income and rent received, less total production expenses, plus the value of inventory change, less corporate farm income, plus a statistical adjustment, plus farm wages and perquisites, plus farm other labor income. Alternatively, the definition of farm income may be stated as the sum of proprietors' net farm income, the wages of hired farm labor, the pay-in-kind of hired farm labor, and the salaries of officers of corporate farms.

3005 PERCAPINCOME
Per Capita Income ($) by Place of Residence. The total personal income of residents of an area divided by the resident population of the area. Per capita personal income serves as one indicator of the quality of consumer markets and of the economic well-being of the residents of an area. Substantial differences between BEA estimates of per capita income and Census Bureau estimates are due to differences in definition of income, collection mode, and method of computation.

3006 EARNINGS
Total Earnings ($000s) by Place of Work. Total earnings by place of work includes wage and salary disbursements, other labor income (employer contributions to private pension funds, employer contributions to private welfare funds, employer contributions to privately administered workmen's compensation funds, directors' fees, compensation to prison inmates, fury and witness fees, other judicial fees, and marriage fees paid to justices of the peace), and proprietors' income.

3009 NETEARNINGS
Net Earnings ($000s) by Place of Residence. The result of adjusting gross earnings by place of work through subtracting the personal contributions for social insurance and making an adjustment for place of residence.

3010 DIVINTRENT
Dividends, Interest, and Rent ($000s) by Place of Residence. Dividends are cash payments by corporations, organized for profit, to stockholders who are U.S. residents. Interest is the monetary and imputed interest income of persons from all sources. Rental income of persons is the income of persons (except those primarily engaged in the real estate business) from the rental of real

property and mobile homes; the imputed net rental income of owner-occupants of nonfarm dwellings (including mobile homes); and the royalties received by persons from patents, copyrights, and the right to natural resources. Rents and royalties are adjusted by a capital consumption adjustment.

3011 TRANSFERPAY
Transfer Payments ($000s) by Place of Residence. Transfer payments are income payments to persons, generally in monetary form, for which they do not render current services. The component includes payments by government and business to individuals and nonprofit institutions. The major categories of transfer payments are retirement, disability, and health insurance benefits; unemployment insurance payments; educational and training assistance payments; income maintenance payments, other payments to individual civilians; government payments to retired military personnel, veterans, and their dependents; payments to nonprofit institutions, and business transfers to individuals.

3012 WAGESAL
Wages and Salaries ($000s) by Place of Work. Wage and salary disbursements consist of monetary remuneration of employees, including compensation of corporate officers, commissions, tips and bonuses, and pay-in-kind that represents income to the recipient. They are measured before deductions for Social Security contributions, union dues, or other purposes. All disbursements in the current period are covered. Retroactive wages are counted when paid rather than when earned.

3013 OTHERLABOR
Other Labor Income ($000) by Place of Work. Other labor income is a supplement to wages and salaries and consists primarily of employer contributions to private pension and welfare funds and to privately insured workmen's compensation funds. Other items included are directors' fees, compensation to prison inmates, jury and witness fees, other judicial fees, and marriage fees paid to justices of the peace.

3014 PROPINC
Proprietors Income ($000s) by Place of Work. Proprietors' income is the monetary income and income-in-kind of proprietorships and partnerships, including producers' cooperatives. It is treated in its entirety as received by individuals. Interest and dividends received by proprietors and rental income received by persons who are not primarily engaged in the real estate business are excluded from proprietors' income. (They are, however, included in personal income as personal interest income, dividends, and net rental income of persons, respectively.) This total includes an adjustment for inventory valuation and capital consumption.

3015 FARMPINC
Farm Proprietors Income ($000s) by Place of Work. The net income of farm proprietors is computed as the total gross income of all farm operators minus total production expenses. It is modified to reflect current production through a change-in-inventory adjustment and to exclude the income of corporate farms and salaries paid to corporate officers. The total net farm income estimates measure income arising out of the current year's production in the farm sector. Income is adjusted by the value of the net change during the year in farm inventories of livestock and crops held for sale. If farmers sell crops in the current year that were produced in prior years, cash receipts from marketing will be overstated by the amount of sales from storage; the amount held in inventory will decline; and the value of the net change in inventories will be negative. Conversely, if farmers store more of current output than they sell from storage, the amount held in inventory will rise; cash receipts from current output will be understated; but the value of the net change in inventories will be positive. See PROPINC (variable 3014).

3017 FARMEARN
Farm Earnings ($000s) by Place of Work. Total earnings is grouped into farm and nonfarm earnings. Farm earnings includes farm wage and salary disbursements, other farm labor income, and farm proprietors income. See WAGESAL (variable 3012), OTHERLABOR (variable 3013), and PROPINC (variable 3014).

3020 AGFOREARN
Agricultural Services, Forestry, Fishing, and Other Earnings ($000s) by Place of Work. Earnings by the 1-digit SIC codes for the category agricultural services, forestry, fisheries and other industries. "Other" consists of the wages and salaries of U.S. residents employed by international organizations and foreign embassies and consulates of the United States. Based on 1972 SIC.

3026 MININGEARN
Mining Industry Earnings ($000s) by Place of Work. Earnings by broad SIC code for the category mining industry. Based on 1972 SIC.

3031 CONSTEARN
Construction Industry Earnings ($000s) by Place of Work. Earnings by the broad SIC code for the category construction industry. Based on 1972 SIC.

3035 MANUFEARN
Manufacturing Industry Earnings ($000s) by Place of Work. Earnings by broad SIC code for the total manufacturing industry category, including all durable and nondurable manufacturing. Based on 1972 SIC.

3050 TRANSPUTEARN
Transportation/Public Utility Earnings ($000s) by Place of Work. Earnings by broad SIC code for the transportation and other public utilities industries. Based on 1972 SIC.

3071 WHOLESALEARN
Wholesale Trade Earnings ($000s) by Place of Work. Earnings by broad SIC code for the wholesale trade industry. Based on 1972 SIC.

3072 RETAILEARN
Retail Trade Earnings ($000s) by Place of Work. Earnings by broad SIC code for the retail trade industry. Based on 1972 SIC.

3081 FINANCEARN
Finance, Insurance, and Real Estate Earnings ($000s) by Place of Work. Earnings by broad SIC code for the finance, insurance, and real estate industry. Based on 1972 SIC.

3090 SERVICESEARN
Service Industry Earnings ($000s) by Place of Work. Earnings by broad SIC code for the services industry. Based on 1972 SIC.

3109 STATELOCEARN
State and Local Government Earnings ($000s) by Place of Work. Earnings by SIC code for state and local government and government enterprises industry. Based on 1972 SIC.

3110 BEATOTEMP
Total Employment by Place of Work--BEA. Full-time and part-time employment for all industries.

3113 FARMPROP
Farm Proprietors by Place of Work. Full-time and part-time employment of the proprietors type is divided into farm and nonfarm proprietors. This variable represents employment as farm proprietors.

3115 FARMEMP
Farm Industry Employment by Place of Work. All full-time and part-time employment is divided between farm and nonfarm employment. This total represents employment in the farm industry.

3118 AGFOREMP
Agricultural Services, Forestry, Fishing, and Other Employment by Place of Work. All nonfarm, private industry full-time and part-time employment is estimated by major industry types. This total represents employment estimates for the agricultural services, forestry, fisheries, and other industries. "Other" consists of the number of jobs held by U.S. residents employed by international organizations and foreign embassies and consulates of the United States. Based on 1972 SIC.

3119 MININGEMP
Mining Industry Employment by Place of Work. All nonfarm, private industry full-time and part-time employment is estimated by major industry types. This total represents employment estimates for the mining industry. Based on 1972 SIC.

3120 CONSTEMP
Construction Industry Employment by Place of Work. All nonfarm, private industry full-time and part-time employment is estimated by major industry types. This total represents employment estimates for the construction industry. Based on 1972 SIC.

3121 MANUFEMP
Manufacturing Industry Employment by Place of Work. All nonfarm, private industry full-time and part-time employment is estimated by major industry types. This total represents employment estimates for the manufacturing industry. Based on 1972 SIC.

3122 TRANSPUTEMP
Transportation and Public Utility Employment by Place of Work. All nonfarm, private industry full-time and part-time employment is estimated by major industry types. This total represents employment estimates for the transportation and public utilities industries. Based on 1972 SIC.

3123 WHOLESALEMP
Wholesale Trade Employment by Place of Work. All nonfarm, private industry full-time and part-time employment is estimated by major industry types. This total represents employment estimates for the wholesale trade industry. Based on 1972 SIC.

3124 RETAILEMP
Retail Trade Employment by Place of Work. All nonfarm, private industry full-time and part-time employment is estimated by major industry types. This total represents employment estimates for the retail trade industry. Based on 1972 SIC.

3125 FINANCEMP
Finance, Insurance, and Real Estate Employment by Place of Work. All nonfarm, private industry full-time and part-time employment is estimated by major industry types. This total represents employment estimates for the finance, insurance, and real estate industry. Based on 1972 SIC.

3126 SERVICESEMP
Service Industry Employment by Place of Work. All nonfarm, private industry full-time and part-time employment is estimated by major industry types. This total represents employment estimates for the service industry. Based on 1972 SIC.

3130 STATELOCEMP
State and Local Government Employment by Place of Work. All full-time and part-time employment in government and government enterprises is classified by type of government. This total represents estimates for employment in state and local governments. 1969-74 based on 1967 SIC. 1975-87 based on 1972 SIC.

3131 GOVTOINDIVID
Government Payments ($000s) to Individuals by Place of Work. Total transfer payments are categorized by "government payments to individuals", "payments to nonprofit institutions", and "business payments to individuals". This total represents estimates for government transfer payments to individuals. See TRANSFERPAY (variable 3011).

3132 RETDISABPAY
Retirement and Disability Insurance Benefit Payments ($000s) by Place of Work. Government transfer payments to individuals are classified by 7 major types. This type includes all transfers for retirement and disability insurance benefits.

3140 MEDICALPAYMT
Medical Payments ($000s) by Place of Residence. Government transfer payments to individuals are classified by 7 major types. This type includes all transfers for medical care, i.e., medicare payments, medical vendor payments, and CHAMPUS payments.

3141 INCOMEMAINT
Income Maintenance Benefit Payments ($000s) by Place of Residence. Government transfer payments to individuals are classified by 7 major types. This type includes all transfers for income maintenance benefits.

3146 UNEMPLINSUR
Unemployment Insurance Payments ($000s) by Place of Residence. Government transfer payments to individuals are classified by 7 major types. This type includes all transfers for unemployment insurance benefits.

3152 VETERANBENEF
Veteran Benefits Payments ($000s) by Place of Residence. Government transfer payments to individuals are classified by 7 major types. This type includes all transfers for veterans' benefits.

3157 FEDEDUCPAY
Federal Educational and Training Assistance (Excluding Veterans) Payments ($000s) by Place of Residence. Government transfer payments to individuals are classified by 7 major types. This type includes all transfers for federal educational and training assistance, excluding veterans. It includes federal fellowship payments (National Science Foundation, fellowships and traineeships, subsistence payments to state maritime academy cadets, and other federal fellowships), interest subsidy on higher education loans, basic educational opportunity grants, and job corps payments.

3158 OTHERINDPAY
Other Payments to Individuals ($000s) by Place of Residence. Government transfer payments to individuals are classified by 7 major types. This type includes all transfers for other payments to individuals. It includes Bureau of indian Affairs payments, education exchange payments, compensation of survivors of public safety officers, compensation of victims of crime, Alaska Permanent Fund dividend payments and other special payments to individuals.

3164 FARMCASH
Receipts from Farm Marketings ($000s) by Place of Residence. Total cash receipts from farm marketings of "livestock and products" and "crops".

3165 LIVESTOCKREC
Livestock and Livestock Products Receipts ($000s) by Place of Residence. Total cash receipts from farm marketings of livestock and livestock products.

3166 CROPRECEIPTS
Farm Crop Receipts ($000s) by Place of Residence. Total cash receipts from farm marketings of crops.

3168 GOVPAYTOFARM
Farm Income from Government Payments ($000s) by Place of Residence. Farm income from government payments to farms under several programs.

3170 FARMPRODEXP
Farm Production Expenses ($000s) by Place of Residence. Comprised of 7 types of expenses, this figure estimates total farm production expenses, including cost of purchases of feed, livestock and poultry, seed, fertilizer and lime, pesticides, and petroleum products; cash wages, perquisites, contract labor expenses; machine hire and customwork; animal health costs (included in "other expenses" prior to 1974), and all other expenses (i.e., mainly overhead items such as taxes, mortgage interest, electricity, telephone, depreciation, etc.).

3181 FARMCASHOTHR
Total Farm Cash and Other Income ($000s) by Place of Residence. The sum of total cash receipts from farm marketing (variable 3164) and other farm income, i.e., total gross farm income.

3182 FARMNETINC
Realized Farm Net Income ($000s) by Place of Residence. Total cash receipts and other farm income less total production expenses.

3201 FARMSNUMBER
Number of Farms. The number of places from which $1,000 or more of agriculture products were sold or normally would have been sold during the census year.

3202 LANDINFARMS
Land in Farms (Acres). Agricultural land used for crops, pasture, or grazing. It also includes woodland and wasteland not under cultivation or used for pasture or grazing, given it was part of the farm operator's total operation. Large acreages of woodland or wasteland held for nonagricultural purposes are not included. Land in farms is an operating unit concept and includes land owned and operated as well as land rented from others. All grazing land, except land used under government permits, was included given it was part of a farm or ranch. Grazing land operated by grazing associations was to be reported by the person responsible for conducting the business of the association. All land in Indian reservations used for growing crops on grazing livestock is included. Land in reservations not reported by an individual is reported in the name of the cooperative group that used the land.

3205 VALUEAVEACRE
Average Value per Acre of Land and Buildings ($). Estimate of the current market value of land and buildings owned, rented or leased from others, and those rented or leased to others, divided by total farm acreage. Market value refers to the respondent's estimate of what the land and buildings would sell for under current market conditions. If the value was not reported, it was estimated using the average value of land and buildings from a similar farm in the same geographical area. Based on a sample.

3216 HARVCRPACRES
Harvested Cropland--Census (Acres). The number of acres containing harvested cropland, i.e., land from which crops were harvested or hay was cut, and land in orchards, citrus groves, vineyards, nurseries, and greenhouses.

3219 VALUEAGPROD
Market Value of Agricultural Products Sold ($000s). Gross market value before taxes and production expenses of all agricultural products sold or removed from the place in the census year regardless of who received the payment. It includes sales by the operator as well as the value of any shares received by partners, landlords, contractors, or others associated with the operation. It includes the loan value received in the census year for placing commodities in the CCC loan program. The value of agricultural products sold represents total sales of all crops, including nursery products sold, and livestock, poultry, and their products sold. The value of crops sold in the census year may include sales from crops produced in earlier years that were previously stored.

3221 VALUECROPS
Market Value of Crops Including Nursery and Greenhouse ($000s). These figures represent the market value of crops sold on farms, including nursery and greenhouse products grown for sale, in thousands of dollars. See VALUEAGPROD (variable 3219).

3222 VALULIVESTOK
Livestock, Poultry, and Livestock and Poultry Products ($000s). These figures represent the market value of sales on farms of livestock, poultry, and their products in thousands of dollars. See VALUEAGPROD (variable 3219).

3231 FARMEROTHOCC
Farm Operators Whose Principal Occupation Not Farming. The number of operators who spent 50 percent or more of their worktime in the census year in occupations other than farming or ranching. The term "operator" designates a person who operates a farm, either doing the work or making day-to-day decisions about such things as planting, harvesting, feeding, marketing, etc. The operator may be the owner, a member of the owner household, a salaried manager, a tenant, a renter, or a sharecropper. For census purposes, the number of operators is the same as the number of farms.

3235 FARMPRODEXPA
Total Farm Production Expenses ($000s). Any expenses pertaining to the operation of the farm business during the census year. Based on a sample of one in five farms. Comparable data from earlier censuses are not available.

5001 POPULATION
Population (Census, Estimate, or Projection). Depending on the year, this is the corrected decennial census count (April 1, 1970, 1980, and 1990), or the estimate or projection from the State Demographer (April 1, 2000, 2010, July 1, other years). A projection differs from an estimate in that it relies on certain assumptions about long term trends in data which are not yet available, while an estimate is based on data from predictor variables which are available for the estimate year. The numbers are rounded to the nearest 100 for years 1971-1979. See POPTOTALSTF (variable 6001).

5003 PCINCOMEEST
Per Capita Money Income Estimate--Census Bureau ($). The per capita income (PCI) figure is the estimated average amount (per person) of total money income received in a given political jurisdiction. Estimates are based on the decennial census and have been updated using rates of change developed from various administrative record sets and compilations, mainly from the Internal Revenue Service (IRS) and the Bureau of Economic Analysis (BEA). Total money income is defined by the Bureau of the Census as the sum of: wage or salary income; net nonfarm self-employment income; net farm self-employment; interest, dividends, and net rental income; Social Security and Railroad Retirement income; public assistance income; and all other regularly received income such as Veterans' payments, pensions, unemployment compensation, and alimony. Receipts not counted as income include various "lump-sum" payments such as capital gains or inheritances and in-kind payments such as food stamps. The total represents the amount of income received before deductions for personal income taxes, Social Security, bond purchases, union dues, Medicare deductions, etc.

5004 DENSITY
Population Density (Persons per square mile). These figures represent the number of persons per square mile for the reference area. The population counts are from POPULATION (variable 5001) and the land area from LANDAREACEN (variable 6242).

5101 ADVALREV
Ad Valorem Tax Revenues ($). County-wide property tax revenues to the county government during the fiscal year, including taxes due for previous years, amounts previously written off, penalties, and interest. Does not include supplemental school taxes, special district taxes, or municipal taxes. Listed under the ending year of the fiscal year. See TOTALREV (variable 5112).

5102 SALESTAXREV
Local Option Sales Tax Revenues ($). Revenues received by the county government from the one percent and the two one-half percent local option sales taxes, where applicable. Listed under the ending year of the fiscal year. See TOTALREV (variable 5112).

5103 OTHERTAXREV
Other Tax Revenues ($). Tax revenues to the county government from special tax district ad valorem taxes (where retained and expended by the county), animal tax, real property transfer tax (excise stamp), intangibles tax, privilege licenses, other licenses, occupancy tax, and five percent ABC bottle tax. Listed under the ending year of the fiscal year. See TOTALREV (variable 5112).

5107 PERMITREV
Permits and Fees Revenues ($). Revenues to the county government from permits and fees, including building permits, inspection fees, other permits, and register of deeds (but not excise stamp) fees. Listed under the ending year of the fiscal year. See TOTALREV (variable 5112).

5108 SALESSERVREV
Sales and Services Revenues ($). Revenues to the county government from sales and services, including parking, rents and royalties, airport, fire protection charges, garbage and landfill, ambulance and rescue squad charges, cemeteries, recreation services, library services, other cultural and recreational services, client and third party payments (health, mental health, social services, and county home charges), county operated mass transit, and other sales and services. Listed under the ending year of the fiscal year. See TOTALREV (variable 5112).

5109 UTILITYREV
Utility Revenues ($). Revenues received by the county government for water and sewer charges. Listed under the ending year of the fiscal year. See TOTALREV (variable 5112).

5110 MISCREV
Miscellaneous Revenues ($). Revenues to the county government from investment earnings, special assessments, private contributions and donations, refunds, sales of materials and fixed assets, sales of real property, ABC distributions, and other revenues not elsewhere classified. Listed under the ending year of the fiscal year. See TOTALREV (variable 5112).

5111 OTHERFINANCE
Other Financing Sources ($). Proceeds to the county government from sale of bonds and notes, lease purchase agreements, and multiple-year installment purchase contracts. Listed under the ending year of the fiscal year. See TOTALREV (variable 5112).

5112 TOTALREV
Total Revenues and Other Financing Sources ($000s). Total county government revenues from all sources, including other financing sources (variable 5111). Equivalent to the sum of variables 5101-5111, rounded to the nearest thousand. Amounts shown for North Carolina differ from county sums due to rounding. Excludes interfund transfers. Summarized from annual financial information report forms submitted to the Department of State Treasurer by the county governments. Amended figures are occasionally submitted; data shown here reflect the latest available amendments. Similar data presented in "Fiscal Summary of North Carolina Counties," published by the Department of State Treasurer and the Association of County Commissioners, may differ from data shown here, due to the time periods in which amendments are received, and to differences in the definitions of some of the revenue categories. Listed under the ending year of the fiscal year.

5113 GENGOVTEXP
General Government Expenditures ($). Expenditures by the county government for the following categories: governing body, administration, cost of elections, finance, tax revaluation, legal, public buildings, court facilities, central services, register of deeds, and other general government. Listed under the ending year of the fiscal year. See TOTALEXP (variable 5127).

5114 PUBLICSAFEXP
Public Safety Expenditures ($). Expenditures by the county government for the following categories: sheriff and communications, jail, emergency management, fire, inspectors, rescue units, animal control, medical examiner/coroner, and other public safety. Listed under the ending year of the fiscal year. See TOTALEXP (variable 5127).

5115 TRANSPEXP
Transportation Expenditures ($). Expenditures by county government for improvements to subdivisions and streets, parking facilities, airports, mass transit, and other transportation. Listed under the ending year of the fiscal year. See TOTALEXP (variable 5127).

5116 ENVPROTEXP
Environmental Protection Expenditures ($). Expenditures by the county government for garbage and landfill, drainage and watershed, cemeteries, and other environmental protection projects. Listed under the ending year of the fiscal year. See TOTALEXP (variable 5127).

5117 ECONPHYSEXP
Economic and Physical Development Expenditures ($). Expenditures by the county government for planning and zoning, economic development, community development, special employment programs (JTPA), agricultural extension, and other economic and physical development. Listed under the ending year of the fiscal year. See TOTALEXP (variable 5127).

5118 HUMANSERVEXP
Human Services Expenditures ($). Expenditures by the county government for health, mental health, social services administration and assistance programs (not including county payments to the state for Medicaid, AFDC, etc.--see SOCSERVEXP (variable 1703)), legal aid, subsidies paid to hospitals, veterans assistance officer, and other human services. Listed under the ending year of the fiscal year. See also TOTALEXP (variable 5127).

5119 CULTRECEXP
Culture and Recreation Expenditures ($). Expenditures by the county government for recreation and parks, coliseums, museums, libraries, and any other culture and recreation projects. Listed under the ending year of the fiscal year. See TOTALEXP (variable 5127).

5120 UTILITYEXP
Utility Expenditures ($). Expenditures by the county government for water and sewer services. Listed under the ending year of the fiscal year. See TOTALEXP (variable 5127).

5121 DEBTSERVEXP
Debt Service Expenditures ($). Debt service expenditures by the county government, including interest, fees, and principal retired, for water and sewer, schools, community and technical colleges, hospitals, and other projects. Listed under the ending year of the fiscal year. See TOTALEXP (variable 5127).

5122 NONDEPTEXP
Nondepartmental Expenditures ($). Expenditures by the county not classified under other expenditure type categories. May include a pension fund operated by the county, unallocated fringe benefits, separation allowance for law enforcement officers or other employees, or supplemental retirement income plan for law enforcement officers. Listed under the ending year of the fiscal year. See TOTALEXP (variable 5127).

5123 OTHERIGEXP
Other Intergovernmental Expenditures ($). Intergovernmental expenditures by the county other than school expenditures (variable 1704), community college expenditures (variable 1705), and social services expenditures (variable 1703). May include multi-county health district, mental health authority, or library district, fire protection to a municipality, general governmental activities shared with a city, and other intergovernmental expenditures. Listed under the ending year of the fiscal year. See TOTALEXP (variable 5127).

5124 FEDERALREV
Federal Intergovernmental Revenues ($). Revenues to the county government from federal sources. Includes categorical grants and payments in lieu of taxes. Listed under the ending year of the fiscal year. Data are subject to errors in reporting, especially incorrect listing of pass-through amounts from federal government under state intergovernmental revenues (variable 5125). Total intergovernmental revenues (sum of variables 5124, 5125, and 5126) is more reliable than the individual variables. See TOTALREV (variable 5112).

5125 STATEREV
State Intergovernmental Revenues ($). Revenues to the county government from the state, including payments in lieu of taxes, beer and wine tax, court costs, revenue from public school building capital outlay funds, sales and gas tax refunds, food stamp purchases tax reimbursement, inventories tax reimbursements, senior citizens exemption, and categorical grants. Listed under the ending year of the fiscal year. See TOTALREV (variable 5112) and FEDERALREV (variable 5124).

5126 LOCALREV
Local Intergovernmental Revenues ($). Revenues to the county government from local governmental sources, including payments in lieu of taxes and categorical grants. Listed under the ending year of the fiscal year. See TOTALREV (variable 5112) and FEDERALREV (variable 5124).

5127 TOTALEXP
Total Expenditures ($000s). Total of all county government expenditures. Equivalent to the sum of expenditures by type (variables 5113 through 5126), and to the sum of expenditures by object (1701-1702, 5133-1536), rounded to the nearest thousand. Amounts shown for North Carolina differ from county sums, due to rounding. Excludes interfund transfers. Listed under the ending year of the fiscal year. Summarized from annual financial information report forms submitted to the Department of State Treasurer by the county governments. Amended figures are occasionally submitted; data shown here reflect the latest available amendments. Similar data presented in "Fiscal Summary of North Carolina Counties," published by the Department of State Treasurer and the Association of County Commissioners, may differ from data shown here, due to the time periods in which amendments are received, and to differences in the definitions of some of the expenditure categories.

5128 REALPROPVAL
Real Property Valuation ($000s). Total valuation as of January 1 of real property, less senior citizens and disabled persons exemption, and including historic property assessed at either full or reduced value (thousands of dollars). The valuation as of January 1 is used for the tax levy of the subsequent fiscal year, e.g., the 1988 valuation applies to the 1988-89 levy. Real property is reappraised at least every eight years. For the date of the most recent reappraisal for each county, see REVALYEAR (variable 1706). The amount shown for North Carolina is the sum of the counties, rounded to the nearest thousand after summation. Corresponds to "real property" in table 72 of the 1988 edition of "Statistics of Taxation," N.C. Department of Revenue, Tax Research Division.

5129 PERSPROPVAL
Personal Property Valuation ($000s). Total valuation as of January 1 of tangible personal property, less applicable exemptions. Personal property includes machinery and equipment, inventories (excluded for tax years beginning on or after January 1, 1988), household property (nonbusiness household personal property excluded for tax years beginning on or after January 1, 1987), vehicles, etc. The valuation as of January 1 is used for the tax levy of the subsequent fiscal year, e.g., the 1988 valuation applies to the 1988-89 levy. The amount shown for North Carolina is the sum of the counties, rounded to the nearest thousand after summation. Corresponds to "tangible personal property" in table 72 of the 1988 edition of "Statistics of Taxation," N.C. Department of Revenue, Tax Research Division.

5130 PUBSERVAL
Public Service Company Valuation ($000s). Valuation as of January 1 of taxable property of public service companies, in thousands of dollars. These companies include railroads, electric power companies, electric membership corporations, telephone companies, gas and telegraph companies, gas pipeline companies, airlines, buslines, and motor freight carriers. They are appraised annually by the Department of Revenue, Ad Valorem Tax Section. Includes estimated valuations for which final valuations have not been certified by the Department of Revenue due to appeals filed by the companies. The valuation as of January 1 is used for the tax levy of the subsequent fiscal year, e.g., the 1988 valuation applies to the 1988-89 levy. The amount shown for North Carolina is the sum of the counties, rounded to the nearest thousand after summation. Corresponds to "public service company property" in table 72 of the 1988 edition of "Statistics of Taxation," N.C. Department of Revenue, Tax Research Division.

5131 TOTALVAL
Total Property Valuation ($000s). Total assessed valuation as of January 1 of all locally taxable property, in thousands of dollars. Includes real property (REALPROPVAL, variable 5128), personal property (PERSPROPVAL, variable 5129), and public service company property (PUBSERVAL, variable 5130). The valuation as of January 1 is used for the tax levy of the subsequent fiscal year, e.g., the 1988 valuation applies to the 1988-89 levy. The amount shown for North Carolina is the sum of the counties, rounded to the nearest thousand after summation. Corresponds to "total" in table 72, and "assessed valuation" in table 75, in the 1988 edition of "Statistics of Taxation," N.C. Department of Revenue, Tax Research Division.

5132 TAXRATE
Property Tax Rate ($). The county-wide tax rate in dollars per $100 valuation. This rate does not include municipal, school, and other special tax district rates. (For an overall rate which includes these jursidictions, see LEVYPCT, variable 5150). The rates are applied to the valuation as of January 1 of the same year to determine the tax levy of the subsequent fiscal year, e.g., the 1988 rate and the 1988 valuation determine the 1988-89 fiscal year levy. See CNTYWIDELEVY (variable 5137), MUNLEVY (variable 5148), and LEVYALLJURIS (variable 5149). Corresponds to "county-wide tax rate per $100 valuation" in table 72 of the 1988 edition of "Statistics of Taxation," N.C. Department of Revenue, Tax Research Division.

5133 EXPSALWAGE
Expenditure by Object: Salaries and Wages ($). Expenditure by object is a breakdown of local government expenditure into six categories. EXPSALWAGE represents all expenditures on the annual financial information report form under the "salaries and wages" column. Listed under the ending year of the fiscal year. See EXCSCHCAPOUT (variable 1701) and TOTALEXP (variable 5127).

5134 EXPCAPOUTLAY
Expenditure by Object: Capital Outlay ($). Expenditure by object is a breakdown of local government expenditure into six categories. EXPCAPOUTLAY represents all expenditures on the annual financial information report form under the "capital outlay" columns (the construction column and the purchase of land, equipment, and existing structures column), with the exception of those under intergovernmental expenditures (school and community college capital outlay). Listed under the ending year of the fiscal year. See EXPSCHCAPOUT (variable 1701) and TOTALEXP (variable 5127).

5135 EXPOTHEROPER
Expediture by Object: Other Current Operations ($). Expenditure by object is a breakdown of local government expenditure into six categories. EXPOTHEROPER represents all expenditures on the annual financial information report form under current operations, other than salaries and wages, and includes both the interest and fees and the principal retired columns for debt service expenditures. Listed under the ending year of the fiscal year. See EXCSCHCAPOUT (variable 1701) and TOTALEXP (variable 5127).

5136 EXPOBJOTHER
Expenditure by object: Other ($). Expenditure by object is a breakdown of local government expenditure into six categories. EXPOBJOTHER represents all expenditures on the annual financial information report form not covered by the other object categories, i.e., all intergovernmental expenditures other than public school and community college. This includes county payments to the state for Medicaid and AFDC, multi-county health, mental health, and library district expenditures, fire protection to a municipality, general governmental activities shared with the city, and "other." Listed under the ending year of the fiscal year. See EXCSCHCAPOUT (variable 1701) and TOTALEXP (variable 5127).

5137 CNTYWIDELEVY
County-Wide Property Tax Levy ($). Amount of property tax levied by the county for the fiscal year, rounded to the nearest dollar. The levy is determined by multiplying the total valuation, TOTALVAL, (variable 5131) by the tax rate, TAXRATE (variable 5132). Municipal, school, and other special tax district levies are not included. Listed under the beginning year of the fiscal year. Amounts shown for North Carolina are equal to the sum of the counties. Corresponds to "County-wide property tax" in table 73, and "County-wide levies" in table 75 of the 1988 edition of "Statistics of Taxation," N.C. Department of Revenue, Tax Research Division.

5138 LICENSETAX

License Tax Collections ($). Amount of license taxes collected by the county for the fiscal year, rounded to the nearest dollar. Corresponds to "License taxes" in table 73 of the 1988 edition of "Statistics of Taxation," N.C. Department of Revenue, Tax Research Division. Amounts shown for North Carolina are equal to the sum of the counties. Listed under the ending year of the fiscal year.

5139 SALESTAXSHAR

Local Government Share of Local Sales Taxes ($). Amount in dollars of distributions by the state during the fiscal year, after deduction of administrative costs, to the county government from local option sales taxes. Includes the one percent and the two half percent taxes, where applicable. The source of the data is the series of quarterly reports of sales tax distributions, produced by the Department of Revenue. Rounded to the nearest dollar. Amounts shown for North Carolina are derived by summing the counties before rounding. Listed under the beginning year of the fiscal year. Corresponds to "County share of local government sales taxes" in table 73 of the 1988 edition of "Statistics of Taxation," N.C. Department of Revenue, Tax Research Division.

5140 INTANGIBLTAX

Local Government Share of Intangibles Tax ($). Amount of distributions by the state, during the fiscal year, to the county government from intangible property tax collections. Does not include reimbursements for amounts lost due to changes in tax legislation. The tax applies to net accounts receivable, notes, bonds, and other evidences of debt, shares of stock and units of investment funds, and beneficial interest in foreign trusts. It is administered by the Department of Revenue, Intangibles Tax Section, and revenues are allocated to the local governments, after deduction of administrative costs. Amounts shown for North Carolina are equal to the sum of the counties. Rounded to nearest dollar. Listed under the beginning year of the fiscal year. The source of the data is the "Distribution Report of Intangible Personal Property Tax Collections," produced by the Department of Revenue. Corresponds to "Intangible property tax" in table 73 of the 1988 edition of "Statistics of Taxation," N.C. Department of Revenue, Tax Research Division.

5141 BEERWINETAX

Local Government Share of Beer and Wine Excise Tax ($). Amount in dollars of distributions by the state to the county government from beer and wine excise tax collections. The tax is administered by the Department of Revenue, License and Excise Tax Division, and the amount of the local share is based on estimated population. Amounts shown for North Carolina are equal to the sum of the counties. Rounded to nearest dollar. Listed under the beginning year of the fiscal year. The source of the data is the annual report "Amount of Beer...Unfortified Wine, and Fortified Wine Excise Taxes Allocated to Counties and Municipalities...", produced by the Department of Revenue. Corresponds to "Beer and wine excise taxes" in table 73 of the 1988 edition of "Statistics of Taxation," N.C. Department of Revenue, Tax Research Division.

5142 TAXTOTAL

Total Tax Levies and Shares of State Taxes ($000s). The total, rounded to the nearest thousand, of the county-wide property tax levy (variable 5137), license taxes (variable 5138), excise stamp tax on conveyances (variable 1707), county share of local option sales taxes (variable 5139), and the county shares of state intangible property tax (variable 5140) and beer and wine excise tax (variable 5141). Beginning with fiscal year 1985-86, state reimbursements to county governments for intangibles taxes lost due to legislative changes are included. Beginning with fiscal year 1989-90, reimbursements for lost property taxes and local sales taxes are also included. Listed under the beginning year of the fiscal year. The amount shown for North Carolina is the sum of the counties, rounded to the nearest thousand after summation. Corresponds to "Total all county taxes" in table 73 of the 1988 edition of "Statistics of Taxation," N.C. Department of Revenue, Tax Research Division. Note that variables 1707 and 5138 are for the prior fiscal year.

5148 MUNLEVY

Municipal Property Tax Levies ($). Total municipal property tax levy for the fiscal year, to nearest dollar. The levy is determined by multiplying the municipal tax rate by the total assessed valuation as of January 1 of taxable property in the municipality. Amounts shown for counties are the totals for all municipalities located within the county. Amounts shown for North Carolina are the totals for all municipalities in the state. Listed under the beginning year of the fiscal year. Corresponds to "City or town levies" in table 75 of the 1988 edition of "Statistics of Taxation," N.C. Department of Revenue, Tax Research Division.

5149 LEVYALLJURIS

Property Tax Levy, All Jurisdictions ($000s). Represents the total amount of property taxes levied by all jurisdictions in the county for the fiscal year, in thousands of dollars. Equivalent to the sum of county wide levies (variable 5137), school district levies, other special district levies, and city or town levies (variable 5148), rounded to the nearest thousand. Listed under the beginning year of the fiscal year. The amount shown for North Carolina is the sum of the counties, rounded to the nearest thousand after summation. Corresponds to "total property tax levies for all jurisdictions" in table 75 of the 1988 edition of "Statistics of Taxation," N.C. Department of Revenue, Tax Research Division.

5150 LEVYPCT

Tax Levy as a Percentage of Valuation. The total property tax levy for all jurisdictions (variable 5149) expressed as a percentage of the total assessed valuation (variable 5131), rounded to two decimal places. This can be thought of as an effective county-wide tax rate per $100 valuation for all jurisdictions in the county. It is not an actual tax rate which applies to a particular locality. Corresponds to "Percent total levy is of valuation" in table 75 of the 1988 edition of "Statistics of Taxation," N.C. Department of Revenue, Tax Research Division.

5151 ABCSALES

ABC Gross Sales ($). Gross sales by the local Alcoholic Beverage Control board of spirituous liquor to the general public, spirituous liquor to mixed beverage permittees such as restaurants and clubs (where applicable), and wine. Includes state taxes, the "five cents per bottle" rehabilitation contribution, the "five cents per bottle" price increase credited to the local governments, and the mixed beverage tax. Amounts shown in table H5 include both county and municipal ABC boards. Amounts shown for North Carolina differ from the sum of the counties and municipalities, due to rounding. Listed under the ending year of the fiscal year. See ABCNETPROFIT (variable 5160).

5160 ABCNETPROFIT

Net Profit of the Local ABC Board ($). Net profits from ABC stores during the fiscal year after deduction of state taxes, rehabilitation contribution, Department of Human Resources and Department of Revenue portions of local mixed beverage tax collections, cost of goods sold, operating expenses, reserves for law enforcement, and contributions for alcohol education and research. Most of the net profits are credited to the general fund of the respective local governments. These data, as well as ABCSALES (variable 5151), are applicable only to counties and municipalities which have ABC boards. Amounts shown in table H5 include both county and municipal ABC boards. Counties which do not have any ABC boards show dots. Source of the data is the annual report, "Revenues from Spirituous Liquor - North Carolina ABC Boards," published by the Alcoholic Beverage Control Commission. The data also appear in the biennial publication "Statistics of Taxation," N.C. Department of Revenue (table 42 in the 1988 edition). Net profits shown in these two publications differ in a few cases, where the distributions for law enforcement and alcohol education and research are included in the net profit amount for various reasons in the annual report. In these cases, the amounts are subtracted from net profits in the data shown in "Statistics of Taxation." Listed under the ending year of the fiscal year. Amount shown for North Carolina differs slightly from the sum of the counties and municipalities, due to rounding.

6001 POPTOTALSTF

Census Population, Uncorrected. Total population residing in the given geographic area as of April 1 of the census year. "Uncorrected" denotes that any corrections issued by the Census Bureau for individual counties or municipalities, subsequent to the release of the data tape, are not included here. See POPULATION (variable 5001).

6002 POPURBAN

Urban Population. All residents of urbanized areas and places of 2500 or more inhabitants outside urbanized areas. An urbanized area contains a population concentration of at least 50,000 inhabitants, generally consisting of a central city and the surrounding, closely settled, contiguous territory (suburbs). Criteria for the determination of urbanized areas changed between the 1970 and 1980 censuses. Based on sample data.

6003 POPRURAL

Rural Population. All resident population other than that classified as urban. Based on sample data. See POPURBAN (variable 6002).

6004 POPWHITE

White Population. The concept of race as used by the Census Bureau in 1980 and 1990 reflects self-identification by respondents; it does not denote any clear-cut scientific definition of biological stock. In earlier censuses, race was determined by an enumerator. The 1980 and 1990 questionnaires had 14 specific race categories instead of 8 as in 1970. When persons with parents of different races were in doubt as to their classification, the race of the father was used in 1970 and the race of the mother in 1980 and 1990. Based on sample data for 1970 and 1980 and on 100 percent data for 1990.

6005 POPBLACK

Black Population. All residents who specified their race as black. The 1970 category "Negro or Black" was retitled "Black or Negro" in 1980 and 1990. Based on sample data for 1970 and 1980 and on 100 percent data for 1990. See POPWHITE (variable 6004).

6006 POPOTHER

Other Race Population. All residents who specified their race as some category other than white or black. Based on sample data for 1970 and 1980 and on 100 percent data for 1990. See POPWHITE (variable 6004).

6007 GROUPQUARTRS

Group Quarters Population. Actual census counts as of April 1 of the census year of persons in living arrangements, such as nursing homes or rooming houses, which are not households. Group quarters persons are either inmates of institutions or other persons in group quarters. An inmate of an institution is a person under care or custody at the time of enumeration. This category includes homes for the aged, correctional institutions, and mental hospitals. Persons living in group quarters who are not inmates of institutions include those living in rooming and boarding homes, communes, convents, monasteries, etc., if there are 10 or more unrelated persons sharing the unit. Persons living in certain types of living arrangements are classified as living in "other" group quarters regardless of the number or relationship of people. This includes persons in military barracks, on ships, in college dormitories, sorority and fraternity houses, missions, etc. Based on sample data.

6009 TOTALMARRIED

Married Persons. All persons 15 and over in 1980 whose current marriage has not ended by widowhood or divorce. Excludes persons categorized as separated. Equivalent to "now married, except separated". Includes "married, spouse present" and "married, spouse absent". Based on sample data.

6010 FEMALMARRIED

Married Women. All females 15 and over in 1980 whose current marriage has not ended by widowhood or divorce. See TOTALMARRIED (variable 6009). Based on sample data.

6011 MALEMARRIED

Married Men. All males 15 and over in 1980 whose current marriage has not ended by widowhood or divorce. See TOTALMARRIED (variable 6009). Based on sample data.

6012 TOTALDIVORCE

Divorced Persons. Persons 15 and over in 1980 who are legally divorced and who have not remarried Based on sample data.

6013 FEMALDIVORCE
Divorced Women. Females 15 and over in 1980 who are legally divorced and who have not remarried. Based on sample data.

6014 MALEDIVORCE
Divorced Men. Males 15 and over in 1980 who are legally divorced and who have not remarried. Based on sample data.

6015 PERSONS0_4
Persons Age 0-4. All residents aged 0-4 on census day. Based on sample data.

6016 PERSONS5_14
Persons Age 5-14. All residents aged 5-14 on census day. Based on sample data.

6017 PERSONSAGE15
Persons Age 15. All residents aged 15 on census day. Based on sample data.

6018 PERSONS16_17
Persons Age 16-17. All residents aged 16-17 on census day. Based on sample data.

6019 PERSONS18_20
Persons Age 18-20. All residents aged 18-20 on census day. Based on sample data.

6020 PERSONS21_24
Persons Age 21-24. All residents aged 21-24 on census day. Based on sample data.

6021 PERSONS25_54
Persons Age 25-54. All residents aged 25-54 on census day. Based on sample data.

6022 PERSONS55_64
Persons Age 55-64. All residents aged 55-64 on census day. Based on sample data.

6023 PERSONS65UP
Persons Age 65 and Over. All residents aged 65 or older on census day. Based on sample data.

6044 FAMILIES
Families. A family consists of two or more persons, including the householder, who are related by birth, marriage, or adoption, and who live together as one household; all such persons are considered as members of one family. (Persons not in families and not inmates of institutions are classified as unrelated individuals.) Based on sample data.

6045 NONFAMILY
Nonfamily Households. Nonfamily households consist of a person living alone or of a householder living with other unrelated individuals. (An unrelated individual may be a householder living alone or only with persons not related to him; a roomer, boarder, partner, roommate, or resident employee unrelated to the householder; or a group quarters member who is not an inmate of an institution.) Based on sample data.

6046 FAMWCHILDREN
Families with Own Children. Number of families that contain own children under age 18. An own child is a never-married child under 18 years who is a son, daughter, stepchild, or adopted child of the householder. Based on sample data.

6047 FEMHOUSEHLDR
Families with a Female Householder, No Husband Present. Households are classified by type according to the sex of the householder and the presence of relatives. A family household includes a family; it may also include nonrelatives living with the family. Based on sample data.

6048 FEMHDRWCHILD
Families with a Female Householder, No Husband Present, and Own Children. Data represent the number of families with a female householder, no husband present, and with own children under age 18 present. Based on sample data. See FAMWCHILDREN (variable 6046) and FEMHOUSEHLDR (variable 6047).

6049 MALEHWCHILD
Families with a Male Householder, No Wife Present, and Own Children. Data represent the number of families with a male householder, no wife present, and with own children under age 18 present. Based on sample data. See FAMWCHILDREN (variable 6046) and FEMHOUSEHLDR (variable 6047).

6050 CHILDRENWPAR
Children Living with Both Parents. This is a count of the number of own children (of householder) under age 18 who live with both parents; that is, the number of own children of householders living in households classified as married-couple family households. Based on 100% data. See FAMWCHILDREN (variable 6046).

6051 CHILDRENWOPR
Children Not Living with Both Parents. Includes children under 18 living in family with a male householder and no wife present, in a family with a female householder and no husband present, with other relatives, with nonrelatives, in group quarters, or, in some cases, living as householders or spouse of householder themselves. Based on 100% data. See CHILDRENWPAR (variable 6050).

6052 FEMWCHILDREN
Females Aged 16 Years and Older with Own Children. An own child is a never-married child under 18 years who is a son, daughter, stepchild, or adopted child. Based on sample data.

6053 PERSINHSHLD
Persons in Households. The number of persons living in housing units. All occupants are counted - not just those related to the householder, but also any lodgers, roomers, boarders, partners, wards, foster children, and resident employees who share the living quarters. Based on sample data.

6054 PERSPERHHD
Persons per Household. The average number of persons per household for the area. Calculated as the quotient of PERSINHSHLD (variable 6053) divided by HOUSEHOLDS (variable 6055), rounded to two decimal places.

6055 HOUSEHOLDS
Households. Counts of the occupied housing units (or householders) in the area. Based on sample data but controlled to 100% count of households.

6056 ONEPERSHHLDS
One-Person Households. Number of persons living alone. Based on sample data.

6057 ONEPERS65UP
One-Person Households with Householder Age 65 and Up. Number of persons aged 65 years and older living alone. Based on sample data in 1970 and 100% data in 1980.

6058 MALESINLF
Males Age 16 and Up in the Labor Force. Males aged 16 and over in the labor force. Persons 16 years old and over were classified as to their status in the labor force in the calendar week prior to completion of their questionnaires. For many persons, but not all, this was the last week of March. This measure of labor force excludes members of the Armed Forces. It includes the number of employed and unemployed civilians. Based on sample data.

6059 FEMALESINLF
Females Age 16 and Up in the Labor Force. Females aged 16 and over in the labor force. Based on sample data. See MALESINLF (variable 6058).

6060 MALESEMPLOYD
Employed Males Age 16 and Up. Civilian males 16 years old and over who were either "at work" or "with a job but not at work". "At work" includes those who did any work at all as paid employees or in their own business or profession, or on their own farm, or who worked 15 hours or more as unpaid workers on a family farm or in a family business during the reference week. "With a job but not at work" includes those who did not work during the reference week but had jobs or businesses from which they were temporarily absent due to illness, bad weather, industrial dispute, vacation, or other personal reasons. Excluded from the employed are persons whose only activity consisted of work around the house or volunteer work for religious, charitable, and similar organizations. This variable excludes Armed Forces. Based on sample data.

6061 FEMALEMPLOYD
Employed Females Age 16 and Up. Civilian females 16 years old and over who were either "at work" or "with a job but not at work". Based on sample data. See MALESEMPLOYD (variable 6060).

6062 MALESUNEMPL
Unemployed Males Age 16 and Up. Civilian males 16 years old and over who were neither "at work" nor "with a job, but not at work" and who were looking for work during the last 4 weeks and available to accept a job. Examples of jobseeking activities are registering at a public or private employment office, meeting with prospective employers, checking with friends or relatives, placing or answering advertisements, writing letters of application, and being on a union or professional register. Also included as unemployed are persons who did not work at all during the reference week and were waiting to be called back to a job from which they had been laid off. Based on sample data.

6063 FEMALEUNEMP
Unemployed Females Age 16 and Up. Civilian females 16 years old and over who were neither "at work" nor "with a job, but not at work" and who were looking for work during the last 4 weeks and available to accept a job. Based on sample data. See MALESUNEMPL (variable 6062).

6064 FEMINLFWCHIL
Females Age 16 and Up in Labor Force with Own Children. Females aged 16 and older who have own children under 18 and who are in the labor force. Based on sample data. See FEMWCHILDREN (variable 6052) and FEMALESINLF (variable 6059).

6065 WORKDISABIL
Persons Age 16-64 with a Work Disability. Noninstitutional persons aged 16-64 who have present a physical or mental condition

which has lasted for 6 months or more and which limits the kind or amount of work the person can do or prevents working at a job or business. A person is limited in the kind of work he or she can do if the person has a health condition which restricts his or her choice of jobs. A person is limited in amount of work if he or she is not able to work at a full time (35 or more hours per week) job or business. This question did not test well, but was included in the census because of the need for local area data on the relative prevalence of work-disabled persons. Based on sample data. See TRANSDISAB (variable 6201).

6066 MEDIANSCHOOL
Median Years of School Completed. The median years of school completed for persons 25 years old and over. Half the population aged 25 and over completed more years of school and half the population aged 25 and over completed fewer years of school. Based on the questions asked concerning highest grade attended in school and whether the individual finished the grade specified. Based on sample data.

6067 HIGHSCHGRADS
High School Graduates Age 25 and Up. Number of persons aged 25 years and older who have completed 4 years of high school or more. Based on sample data.

6068 COLLEGEGRADS
College Graduates Age 25 and Up. Number of persons aged 25 years and older who have completed 4 years of college or more. Based on sample data.

6069 NETCOMMUTING
Net Number Commuting into County. This represents the difference between persons working in the county and employed residents of the county. Tabulations came from a question asked in the decennial census concerning place of work in the week prior to census day. For 1980 in North Carolina 231,970 or 8.7 percent of all employed residents failed to report a place of work. Nonresponse to this particular question allows for the introduction of bias into the data, since the place of work of the nonrespondents has not been observed and may differ from place of work reported by respondents. The state figure represents the net number of commuters into North Carolina from other states. The data came from a special census tabulation based on a sample. See COUNTYOFRES (variable 2515).

6070 MOVEDTOCNTY
Persons Outside this County 5 Years Earlier. Residents of the county aged 5 years old or older at the time of the census who lived outside the county of reference 5 years earlier than census time. Based on sample data.

6077 MEDIANFINC
Median Family Income ($). Family income consists of total money income received in the calendar year by all family members 15 years old and over, tabulated for all families. Family income differs from household income by excluding income received by household members not related to the householder, persons living alone, and others in non-family households. Median family income figures are derived from the entire distribution of family incomes. Based on sample data. See CENSPCINCOME (variable 6082).

6078 MEANFAMINC
Mean Family Income ($). Average income of all families including those with no income or loss in the prior calendar year. Based on sample data. See MEDIANFINC (variable 6077) and CENSPCINCOME (variable 6082).

6079 MEANWHTFINC
Mean Income of White Families ($). Average income of all families with a white householder, including those with no income or loss in the prior calendar year. Based on sample data. See MEDIANFINC (variable 6077) and CENSPCINCOME (variable 6082).

6080 MEANBLKFINC
Mean Income of Black Families ($). Average income of all families with a black householder, including those with no income or loss in the prior calendar year. Based on sample data. See MEDIANFINC (variable 6077) and CENSPCINCOME (variable 6082).

6081 MEDIANHINC
Median Household Income ($). Household income consists of total money income received in the prior calendar year by all household members 15 (14 in 1970) years old and over, tabulated for all households. Median household income figures are derived from the entire distribution of household incomes. Based on sample data. See CENSPCINCOME (variable 6082).

6082 CENSPCINCOME
Per Capita Money Income--Census ($). Per capita money income for the calendar year prior to census day. Per capita income is total money income per resident of the area, including young children, elderly, and others who may not be earning money. Total money income is the sum of amounts reported separately for income from wages and salaries; nonfarm self-employment; farm self-employment; interest, dividends, and net rentals; Social Security; public assistance; and all other sources. The figures represent the amount of income received before deductions for personal income taxes, Social Security, bond purchases, union dues, Medicare deductions, etc. In-kind income is excluded. Based on sample data.

6083 FAMINPOVERTY
Families in Poverty. Number of poor families. Families are classified as above or below the poverty level by comparing their total income in the year prior to census date to a "poverty threshold". The income thresholds for poverty vary by family size, number of children, and age of the family householder. Poverty status is determined for all families. Poverty thresholds are computed on a national basis only. Based on sample data.

6085 FAMPOVFEMALE

Families in Poverty, with Female Householder, No Husband Present. Number of families in poverty which have a female householder with no husband present. Based on sample data. See FEMHOUSEHLDR (variable 6047) and FAMINPOVERTY (variable 6083).

6086 FAMPOVFEMCHL

Families in Poverty, Female Householder with Related Children. Number of families in poverty which have a female householder, no husband present, and related children under age 18. Based on sample data. See FEMHOUSEHLDR (variable 6047) and FAMINPOVERTY (variable 6083).

6087 TOTPOVSTATUS

Persons for Whom Poverty Status is Determined. Poverty is determined for all family members (by implication from the poverty status of the family) and also for persons not in families, except for inmates of institutions, members of the Armed Forces living in barracks, college students living in dormitories, and unrelated individuals under 15 years old. Based on sample data.

6090 CHILDPOVSTAT

Related Children for Whom Poverty Status is Determined. These data represent the number of related children (of householders) under age 18 for whom a poverty status was determined in the decennial census. Based on sample data. See TOTPOVSTATUS (variable 6087).

6092 PERS65POVST

Persons Aged 65 and Over for Whom Poverty Status is Determined. Based on sample data. See TOTPOVSTATUS (variable 6087).

6093 TOTPOVERTY

Persons in Poverty. Total number of persons with income below the poverty threshold in the calendar year prior to the census. Based on sample data. See TOTPOVSTATUS (variable 6087).

6099 CHILDPOVERTY

Related Children in Poverty. Total number of related children (related to householders) less than 18 years old in poverty in the calendar year prior to the census. Based on sample data. See TOTPOVSTATUS (variable 6087).

6103 PER65POVERTY

Persons 65 and Up in Poverty. Number of persons aged 65 years or older who are in poverty in the calendar year prior to the census. Based on sample data. See TOTPOVSTATUS (variable 6087).

6105 TOTALHUNITS

Housing Units. A housing unit is a house, an apartment, mobile home or trailer, group of rooms, or single room, occupied as a separate living quarter or, if vacant, intended for occupancy as a separate living quarter. Separate living quarters are those in which the occupants live and eat separately from any other person in the building and which have direct access from the outside of the building or through a common hall. Both occupied and vacant housing units are included in the housing unit inventory, except that recreational vehicles, boats, caves, tents, railroad cars, and the like are included only if they are occupied as someone's usual place of residence. Vacant mobile homes are included in the housing inventory if they are intended for occupancy where they stand. Units with 10 or more unrelated persons living together were classified as group quarters (rather than housing units). Based on sample data.

6106 SEASONALUNIT

Seasonal Housing Units. Vacant seasonal and migratory units are those vacant units used or intended for use only in certain seasons. Any unit used throughout the year, even if only occasionally, is excluded. Seasonal units include those used for summer or winter sports or recreation - beach cottages and hunting cabins, for example. Seasonal units may also include quarters for such workers as herders and loggers. Migratory units include those for farm workers during crop season. Based on sample data.

6107 YRROUNDUNITS

Year-Round Housing Units. Year-round housing units refer to all occupied units plus vacant units intended for year-round use. Based on sample data.

6108 VACANTUNITS

Vacant Housing Units. Vacant year-round housing units include those units that are vacant but intended for use, even if only occasionally, throughout the year. These units may be vacant for sale only, for rent, rented or sold awaiting occupancy, held for occasional use, or other types of vacant categories. Based on sample data.

6109 RENTEROCCUP

Renter-Occupied Housing Units. Renter-occupied housing units are all occupied housing units which are not owner-occupied, regardless of whether cash rent is paid by a member of the household. Based on sample data.

6110 OWNEROCCUP

Owner-Occupied Housing Units. Owner-occupied housing units are those in which the owner or co-owner lives in the unit even if the unit is mortgaged or not fully paid for. The owner or co-owner need not be the householder. Based on sample data.

6111 MOBILEHOMES

Mobile Homes or Trailers. Both occupied and vacant mobile homes are included if intended for occupancy where located. Based on sample data.

6112 SUBSTANDARD
Substandard Housing Units. A count of the number of occupied housing units that are overcrowded and/or lack complete plumbing facilities. There is no universally accepted definition of substandard housing, but this definition is often used. Overcrowded is measured in terms of more than one person per room, and persons per room is a derived measure obtained by dividing the number of persons in each occupied housing unit by the number of rooms in the unit. "Lacking complete plumbing facilities for exclusive use of the occupants" may occur if there are complete plumbing facilities but they are also used by another household, or if some plumbing facilities are lacking. Complete plumbing facilities include hot and cold piped water, a flush toilet, and a bathtub or shower. Derived from 100% data.

6113 WELLWATER
Individual Well Primary Water Source. This is a count of the number of year-round housing units which have an individual well as the primary source of water. An individual well is specified if water is obtained from a well on the property of the unit being enumerated or on a neighboring property providing water to five or fewer housing units. The well water may be hand drawn, wind drawn, or engine drawn; piped or not piped; stored in tanks; or used directly from the well. Based on sample data.

6114 MEDCONTRENT
Median Contract Rent for Renter-Occupied Units ($). Contract rent is the monthly rent agreed to, or contracted for, regardless of any furnishings, utilities, or services that may be included. Contract rent is tabulated for "specified renter-occupied" units, which exclude one-family houses on 10 acres or more. Respondents were to report rent only for the housing unit enumerated and to exclude any rent paid for additional units or for business premises. The rent amount for the unit was to be reported even if paid for by someone outside the household, or for some reason, not paid. Median is the middle value, so that half of all renter-occupied units paid more monthly and half paid less. Based on 100% data.

6115 MEDGROSSRENT
Median Gross Rent for Renter-Occupied Units ($). Gross rent is contract rent plus the estimated average monthly cost of utilities (water, electricity, gas) and fuels (oil, coal, kerosene, wood, etc.) to the extent that these are paid for by the renter (or paid for by a relative, welfare agency, or friend) in addition to the rent. Gross rent is calculated for "specified renter-occupied" housing units, which excludes one-family houses on 10 acres or more. Gross rent is sometimes preferred to contract rent in comparing costs since contract rent may or may not include utilities. Based on sample data.

6116 MEDIANVALUE
Median Value, Owner-Occupied Units ($). Median value of housing unit for specified owner-occupied, noncondominium units. For owner-occupied housing units, this is the respondent's estimate of the current dollar worth of the property. For vacant units, it is the price asked for the property. A property is defined as the house and land on which it stands. "Specified owner-occupied" includes one-family houses on less than 10 acres and with no business on the property. Value tabulations exclude renter-occupied units, mobile homes or trailers, houses on 10 or more acres, houses with a commercial establishment or medical office on the property, and noncondominium units in multi-family buildings (cooperatives). Based on 100% data.

6117 RENTOVER34PC
Units with High Rent-To-Income Ratio. Number of renter-occupied units for which the gross rent is more than 34 percent of the household income. The ratio of gross rent to household income for the prior calendar year, converted to percentage form, reported for "specified renter-occupied" units, which excludes one-family homes on 10 acres or more. No-cash-rent units and units occupied by households reporting no income or a net loss are not computed. Based on sample data.

6119 UNITSBEF1950
Occupied Housing Units Built Before 1950. The year the original construction of the building was completed (not the date of any later remodeling, addition, or conversion). Includes vacant units. Based on sample data.

6120 UNITSBEF1940
Occupied Housing Units Built Before 1940. Based on sample data. See UNITSBEF1950 (variable 6119).

6201 TRANSDISABIL
Persons with Transportation Disability. Includes noninstitutional persons 16 and over who at the time of the census have a health condition which has persisted for longer than 6 months and makes it difficult or impossible to use buses, trains, subways, or other forms of public transportation. Based on sample data. See WORKDISAB (variable 6065).

6202 EMPMANUFACT
Manufacturing Employment for Residents Age 16 and Over. Residents age 16 and over employed in a manufacturing industry during the reference week. If working at more than one job, a manufacturing industry was reported if most of their work occurred there during the reference week. The reference week for many, but not all, was the last week of March 1980. If the employer is engaged in more than one industry, respondents described manufacturing as the the major activity of the place where the person worked. See NONMANUF (variable 6203). Based on sample data.

6203 NONMANUF
Nonmanufacturing Employment for Residents Age 16 and Over. Residents age 16 and over employed in an industry other than manufacturing during the reference week. If working at more than one job, a nonmanufacturing industry was reported if most of their work occurred there during the reference week. The reference week for many, but not all, was the last week of March 1980. If the employer is engaged in more than one industry, respondents described a nonmanufacturing industry as the the major activity of the place where the person worked. Nonmanufacturing industries include agriculture, forestry and fishing, mining, construction, transportation/communications/public utilities, wholesale trade, retail trade, finance/insurance/real estate, services and public administration. See EMPMANUFACT (variable 6202). Based on sample data.

6204 NURSCHENROL
Nursery School Enrollment. Persons aged 3 years and older enrolled in nursery school. Nursery school is a school organized to provide educational experiences for children during the year or years preceding kindergarten. Children were included as enrolled in nursery school only if the school included instruction as an important and integral phase of its program. Children enrolled in "Head Start" programs, or similiar programs sponsored by local agencies to provide preprimary education to young children, were included as enrolled in school. Based on sample data.

6205 ELEMSCHENROL
Kindergarten and Elementary School Enrollment. Persons aged 3 years and older enrolled in kindergarten or elementary school. Kindergarten is an organized educational program the year before first grade. Elementary school includes grades 1 through 8. Based on sample data. See HIGHSCHENROL (variable 6206).

6206 HIGHSCHENROL
High School Enrollment--Census. Persons aged 3 years and older enrolled in high school. High school includes grades 9 through 12. Persons are classified as enrolled in school if they reported attending a "regular" school or college at any time between February 1, 1980, and the time of enumeration. Regular schooling is defined as nursery school, kindergarten, elementary school, and schooling which leads to a high school diploma or college degree. Schooling in trade or business schools, company training, or schooling obtained through a tutor was to be reported only if the course credits obtained were regarded as transferable to a regular elementary school, high school, or college. Persons who had been enrolled in a regular school since February 1, 1980, but who had not actually attended because of illness, were counted as enrolled in school. Schooling which is generally regarded as not "regular" includes that given in nursery schools which simply provide custodial day care; in specialized vocational, trade, or business schools; in on-the-job training; and through correspondence courses. Based on sample data.

6208 LT5YRELEMSCH
Less Than 5 Years of Elementary School Age 25 Up. Persons aged 25 years and older who have not completed grade 5. Based on sample data.

6209 ELEMSCHEDUC
Elementary School Education Age 25 Up. Persons aged 25 years and older who have completed fewer than 9 years of school. Based on sample data.

6210 ELEMSCHEDUCW
Elementary School Education White Age 25 Up. White persons aged 25 years and older who have completed fewer than 9 years of school. Based on sample data. See POPWHITE (variable 6004).

6211 ELEMSCHEDUCB
Elementary School Education Black Age 25 Up. Black persons aged 25 years and older who have completed fewer than 9 years of school. The sum of the counties and the total for North Carolina in 1980 differ because data were suppressed for certain counties to insure confidentiality. Based on sample data. See POPBLACK (variable 6005).

6212 HIGHSCHGRADW
High School Graduates White Age 25 Up. White persons aged 25 years and older who have completed 4 years or more of high school. Based on sample data.

6213 HIGHSCHGRADB
High School Graduates Black Age 25 Up. Black persons aged 25 years and older who have completed 4 years or more of high school. The sum of the counties and the total for North Carolina in 1980 differ because data were suppressed for certain counties to insure confidentiality. Based on sample data.

6214 OTHERLANGL18
Speak English Not Well or Not at All Age 5-17. Persons aged 5-17 years who speak a language other than English at home. These persons are seriously limited in their ability to speak English or cannot speak English at all. Based on sample data.

6215 OTHERLANGG18
Speak English Not Well or Not at All Age 18 Up. Persons aged 18 years and older who speak a language other than English at home. Based on sample data. See OTHERLANGL18 (variable 6214).

6216 WATERSYSHU
Units with Multi-Unit Water Source. This is a count of the number of year round housing units with a common public or private water source, which supplies running water to six or more housing units. The water may be supplied by a city or county water department, a water district, a private water company, etc., or it may be obtained from a well which supplies six or more housing units. Based on sample data.

6217 WATEROTHHU
Units with Other Water Source. This is a count of the number of year round housing units with "other" water source. Water may be obtained from springs, creeks, rivers, ponds, lakes, cisterns, or other sources not listed, but not from a public system, private company, or well. Based on sample data.

6218 SEWERPUBHU
Units with Public Sewer. This is a count of the number of year round housing units connected to a city, county, sanitary district,

neighborhood, or subdivision sewer system. A public sewer may be operated by a government body or by a private organization. Small sewage treatment plants, called "neighborhood septic tanks" in some localities, are classified as public sewers. All units in structures with five or more units are assumed to be connected to a public sewer. Based on sample data.

6219 SEWERSEPHU
Units with Septic Tank or Cesspool. This is a count of the number of year round housing units with an underground tank or pit into which sewage flows from the plumbing fixtures in the building. Based on sample data.

6220 SEWEROTHHU
Units with Other Sewage Disposal. This is a count of the number of year round housing units with some other means of sewage disposal. "Other" includes an individual sewer line running to a creek, lake, swamp, etc.; units with a privy; and other arrangements. Based on sample data.

6221 STEAMHEAT
Units with Steam Heating Equipment. This is a count of the number of year round housing units with a central heating system which supplies steam or hot water to conventional radiators, baseboard radiators, heating pipes embedded in walls or ceilings, heating coils or equipment which are part of a combined heating-ventilating or heating-air conditioning system. Based on sample data.

6222 WARMAIRHEAT
Units with Central Heating Equipment. This is a count of the number of year round housing units with a furnace which provides warm air through ducts (passageways for air movement) leading to the various rooms. Electric heat pumps are excluded. Based on sample data.

6223 ELECTRICHEAT
Units with Electric Heating Equipment. This is a count of the number of year round housing units with a combination heating-cooling system with indoor and outdoor coils, a compressor, and a refrigerant to pump hot air in during the winter and cooled air in during the summer. The heat pump may be centrally installed with ducts to the rooms, or there may be individual heat pumps in the rooms. It may also be known as a reverse cycle system. Included are electric heating units permanently installed in the floors, walls, ceiling, or baseboards which are a part of the electrical installation of the building. (Electric heating devices that are plugged into an electric socket or outlet are not built in). Based on sample data.

6224 FURNACEHEAT
Units with Furnace Heating Equipment. This is a count of the number of year round units with furnace heating equipment that can be classified as "floor", "wall", or "pipeless". Floor furnaces are below the floor and deliver heated air to the room immediately above or, if under a partition, to the room on each side. Wall furnaces are installed in a partition or in an outside wall and deliver heated air to the rooms on one or both sides. Pipeless furnaces are installed in a basement and deliver heated air through a large register in the floor of the room or hallway immediately above. Based on sample data.

6225 FIREPLACE
Units with Fireplace, Stove, or Room Heater Heating Equipment. This is a count of the number of year round housing units which lack a central heating system and are heated by fireplaces, stoves, or room heaters. Room heaters include those with and those without a flue, as well as portable ones. Fireplaces used as the principal source of heat are counted here, as are ranges and stoves, including parlor stoves, circulating heaters, cookstoves also used for heating, etc. Portable room heaters can be picked up and moved around at will, either without limitation (kerosene, oil, gasoline heaters) or within the radius allowed by a flexible gas hose or an electric cord (gas, electric heaters). This classification includes all electric heaters that get current through a cord plugged into an electric wall outlet. Based on sample data.

6226 NOHEAT
Units with No Heating Equipment. This is a count of the number of year round housing units with no heating equipment. Most common in the warmest part of the country and seasonal units not intended for winter occupancy. Based on sample data.

6227 GASUTILITY
Units Using Utility Gas House Heating Fuel. This is a count of the number of occupied housing units with utility gas house heating fuel. The number of occupied housing units which are heated with gas piped underground from a central system (public utility company, municipal government, or the like) that serves the neighborhood. Based on sample data.

6228 LPTANKGAS
Units Using Bottled Gas House Heating Fuel. This is a count of the number of occupied housing units with bottled gas, tank, or LP gas house heating fuel. The number of occupied housing units for which the type of combustible matter most often used for house heating is bottled, tank, or liquefied petroleum gas stored in tanks which are refilled or exchanged when empty. Based on sample data.

6229 ELECOCCUPHU
Units Using Electric House Heating Fuel. This is a count of the number of occupied housing units with electric house heating fuel. Based on sample data.

6230 FUELOIL
Units Using Fuel Oil or Kerosene House Heating Fuel. This is a count of the number of occupied housing units using fuel oil, distillate, residual oil, kerosene, gasoline, alcohol, and other combustible liquids and semi-fluids as house heating fuel. Based on sample data.

6231 OTHERFUEL
Units Using Coal, Coke, Wood, or Other House Heating Fuel. This is a count of the number of occupied housing units with coal, coke, wood or other fuel for house heating. "All other" includes any other fuel such as purchased steam, coal dust, briquettes made of pitch and sawdust, waste materials such as corn cobs, purchased wood, wood cut by household members on their property or elsewhere, driftwood, or construction scraps or the likes. Households that use solar energy as the prime source of fuel are also included in this category. Based on sample data.

6232 NOHEATAVAIL
Units Using No House Heating Fuel. This is a count of the number of occupied housing units with no house heating fuel. Based on sample data.

6233 FARMPOP
Farm Population. The population classified as living on a farm. Total number of farms is identified only in rural areas and includes all persons living on places of one acre or more from which at least $1,000 worth of agricultural products were sold during the previous calendar year, beginning with the 1980 census. The definition of a farm has been changed since the 1970 census, when a farm was defined as a place of 10 or more acres with at least $50 worth of annual sales or a place of under 10 acres with at least $250 worth of agricultural sales. Based on sample data.

6234 NOVEHICLE
No Vehicles Available. This item refers to the number of households with no vehicle available at home for use by the members of the household. Based on sample data. See ONEVEHICLE (variable 6235).

6235 ONEVEHICLE
One Vehicle Available. This item refers to the number of households with one vehicle available at home for use by the members of the household. Included in this item are passenger cars, pickup trucks, small panel trucks of 1-ton capacity or less, as well as company cars, and taxicabs kept at home for the use of household members. Cars rented or leased for 1 month or more, police and government cars kept at home and used for nonbusiness purposes are included. Dismantled cars, immobile cars used as a source of power for machinery, vans and trucks kept at home but used only for business purposes are excluded. The statistics do not reflect the number of vehicles privately owned or the number of households owning vehicles. Based on sample data. The data include taxicabs if kept at home for use of household members but excludes pickups or larger trucks.

6236 TWOVEHICLES
Two Vehicles Available. This item refers to the number of households with two vehicles available at home for use by the members of the household. Based on sample data. See ONEVEHICLE (variable 6235).

6237 THREEORMORE
Three Or More Vehicles Available. This item refers to the number of households with three or more vehicles available at home for use by the members of the household. Based on sample data. See ONEVEHICLE (variable 6235).

6240 MEANTRAVTIME
Travel Time to Work. Travel time to work refers to the total number of minutes that it usually took the person to get from home to work during the reference week. The elapsed time includes time spent waiting for public transportation, picking up passengers in carpools, and time spent in other activities related to getting to work. Based on sample data.

6242 LANDAREACEN
Land Area--Census (Square miles). Land area is shown in square miles to the nearest hundredth of a square mile. Land area measurements may differ between censuses due to variations in criteria for measuring inland water. Measurements for 1990 were calculated from the specific set of boundaries recorded for the entity in the Census Bureau's geographic data base.

6502 MGMTPROFOCC
Managerial and Professional Specialty Occupations. A summary category that includes all occupations that may be classified as managerial or professional specialty occupations. Includes census occupational categories of officials and administrators, accountants/auditors/other financial specialists, other management related occupations, engineers/architects/surveyors, mathematical/computer/natural scientists, health diagnosing occupations, RNs/pharmacists/dietitians/therapists/physician assistants, teachers, educational and vocational counselors, librarians/archivists/curators, social scientists/urban planners, social and recreational workers, clergy and religious workers, lawyers and judges, writers/artists/entertainers/athletes. Based on sample data.

6519 TECHNICAL
Technical, Sales, and Administrative Support Occupations. A summary category that includes occupations classified as technical, sales, and administrative support. Includes technicians and related support occupations such as technologists and technicians, supervisors and proprietors in sales occupations, sales representatives in finance and business services and commodities, sales workers in retail and personal services, and other sales related occupations, as well as administrative support occupations, including clerical classifications. Based on sample data.

6525 SERVICE
Service Occupations. A summary category that includes occupations classified as service. Includes private household service, protective service, and other services. Based on sample data.

6529 FARMFORFISH
Farming, Forestry, Fishing Occupations. A summary category that includes occupations classified as farming, forestry, and fishing.

Includes farm operators and managers, farm occupations other than managerial, related agricultural occupations, forestry and logging, and fishers/hunters/trappers. Based on sample data.

6530 FARMOPERATOR
Farm Operator and/or Manager Occupations. Occupations classified as farm operators and managers. Based on sample data.

6531 FARMOCC
Farm (Not Managerial) Occupations. Occupations classified as farm occupations except managerial. Includes supervisors of farm workers, farm workers, marine life cultivation workers and nursery workers. Based on sample data.

6535 PRECISIONPRD
Precision Production, Craft, and Repair Occupations. A summary category that includes mechanics and repairers, construction and extractive, woodworking precision production, textile/apparel/furnishings precision production, and other precision production occupations. Based on sample data.

6541 OPERATORS
Operator, Fabricator, Laborer Occupations. A summary category that includes occupations classified as operators, fabricators, and laborers. Includes machine operators, fabricators/assemblers/handworking occupations, production inspectors/testers/samplers/weighers, motor vehicle operators, other transportation occupations, handlers/helpers/laborers. Based on sample data.

7005 ALLRES
Building Permits for All Residential Construction. The total number of building permits for private residential housing. Includes pre-fabricated, sectionalized, panelized, and modular homes which are manufactured partially off-site, but which are transported and assembled at the construction site. Excludes mobile homes. These data come from the monthly survey of 17,000 permit-issuing places, which account for over 92 percent of all new private residential construction in the U.S. Most of these are municipalities. The county totals given here represent all permit-issuing places in the county. There are limitations to the data due to nonreporting.

7010 ALLRESCOST
Building Cost for All Residential Permits ($). Cost of construction of all private residential housing as reported for building permit purposes. According to the Census Bureau, "Detailed recent evidence is lacking as to how closely the valuation recorded for building permit purposes approximates the dollar amount of construction work involved." See ALLRES (variable 7005).

7036 AMUSECOST
Building Cost for Amusement and Recreation Structures ($). Construction cost associated with buildings designed to provide amusement or recreation, such as theaters, radio and TV studios, auditoriums, athletic and social clubs, etc. as reported for building permit purposes. Excludes buildings of these types affiliated with hospitals or other institutional facilities. See ALLRES (variable 7005) and ALLRESCOST (variable 7010).

7037 CHURCHCOST
Building Cost for Churches and Religious Facilities ($). Construction cost associated with construction of churches, temples, synagogues, rectories, parish halls, Sunday school rooms, monasteries, and convents as reported for building permit purposes. Does not include parochial schools and convents affilated with schools, or convents associated with hospitals. See ALLRES (variable 7005) and ALLRESCOST (variable 7010).

7038 INDUSTCOST
Building Cost for Industrial Construction ($). Construction cost associated with construction for industrial buildings, including plants producing, processing or assembling goods and materials together with affilated buildings such as warehouses, garages, administration buildings, etc., as reported for building permit purposes. See ALLRES (variable 7005) and ALLRESCOST (variable 7010).

7039 PARKCOST
Building Cost for Parking Garages ($). Construction cost associated with construction of parking garages open to the general public as reported for building permit purposes. Includes garage buildings and open-deck parking structures to be used primarily for transient parking, but does not include storage garages affiliated with industrial buildings, those affiliated with public works and utitlities buildings, or those affiliated with stores and other mercantile buildings. See ALLRES (variable 7005) and ALLRESCOST (variable 7010).

7040 GARAGECOST
Building Cost for Residential Garages ($). Construction cost associated with residential garages and carports, both attached and detached as reported for building permit purposes. See ALLRES (variable 7005) and ALLRESCOST (variable 7010).

7041 SERVICECOST
Building Cost for Service Stations ($). Construction cost associated with service stations and repair garages as reported for building permit purposes. Does not include repair garages affiliated with public works and utilities buildings or automobile showrooms. See ALLRES (variable 7005) and ALLRESCOST (variable 7010).

7042 HOSPITALCOST
Building Cost for Hospitals and Institutions ($). Construction cost associated with hospital and institutional facilities convalescent homes, rest homes, homes for the aged, nursing homes, orphanages, jails, and other establishments for prolonged institutional care

as reported for building permit purposes. Includes affiliated buildings such as dormitories, laundry buildings, heating plants, garages and workshops; does not include doctors' offices or staff houses and appartments. See ALLRES (variable 7005 and ALLRESCOST (variable 7010)).

7043 PROCOST
Building Cost for Office, Bank, and Professional Building ($). Construction cost associated with construction of offices, banks, and professional buildings used primarily as offices as reported for building permit purposes. Does not include office buildings affiliated with industrial buildings, those affiliated with public works and utilities buildings, those affiliated with stores and other mercantile buildings, or temporary office buildings. See ALLRES (variable 7005) and ALLRESCOST (variable 7010).

7044 PUBLICCOST
Building Cost for Public-Work and Utility Construction ($). Construction cost associated with buildings providing public services such as transportation, communications, power, light, heat, sewer, and garbage disposal, trash incineration, and water supply, together with affiliated warehouses, garages, administrative buildings, etc., as reported for building permit purposes. See ALLRES (variable 7005) and ALLRESCOST (variable 7010) .

7045 SCHOOLCOST
Building Cost for Schools and Educational Facilities ($). Construction cost associated with school construction as reported for building permit purposes. Also includes libraries, museums, zoo buildings, observatories, dormitories, fraternity and sorority houses, parking garages, heating plants, laundries at the facility but does not include faculty and student apartments. See ALLRES (variable 7005) and ALLRESCOST (variable 7010).

7046 STORECOST
Building Cost for Store Construction ($). Construction cost associated with construction of buildings used in buying, selling, distributing, or storing of merchandise and materials, or performing customer services such as stores, auto and other showrooms, commercial warehouses, grain elevators, garages for storing commercial vehicles, restaurants, taverns, night clubs, bakery shops, laundry and dry cleaning shops, beauty and barber shops, animal hospitals, etc., as reported for building permit purposes. Also includes affiliated parking garages, administrative buildings, etc. See ALLRES (variable 7005) and ALLRESCOST (variable 7010).

7047 OTHERNRCOST
Building Cost for Other Non-Residential Construction ($). Construction cost associated with other non-residential construction such as sheds, boat houses, barns, silos, etc., as reported for building permit purposes. See ALLRES (variable 7005) and ALLRESCOST (variable 7010).

7048 NONBLDGCOST
Building Cost for Non-Building Structures ($). Construction cost associated with construction of structures other than buildings, such as outdoor swimming pools, parking lots, patios, and drive-in theaters. See ALLRES (variable 7005) and ALLRESCOST (variable 7010).

7101 CFFRAMOUNT
Federal Funding Amount ($). Total federal funding, obtained from the Consolidated Federal Funds Report tape file, issued annually by the Bureau of the Census. The file consolidates data from reporting systems which exist in various federal government agencies. Covers federal expenditures or obligations for the following object/assistance type categories: grants, salaries and wages, procurement contracts, direct payments for individuals, other direct payments, direct loans, guaranteed or insured loans, and insurance. Dollar amounts reported represent actual expenditures or obligations. In table H14, amounts shown for counties are sums of funding targeted to the county as well as to municipalities or other areas within the county, and are collapsed over the individual funding program titles available in LINC. Amounts shown for North Carolina are restricted to funding targeted to the state, or not identifiable as being targeted to any substate area. The year corresponds to the ending year of the federal fiscal year, which ends September 30.

7201 RCESTAB
Retail Establishments with Payroll. These figures represent the number of establishments (i.e., physical locations where business is conducted) classified primarily as retail that have a payroll. Retail classification implies that the establishment is engaged primarily in selling merchandise for personal or household consumption and in rendering services incidental to the sale of the goods. An establishment is not necessarily identical with the enterprise (company) which may consist of one or more establishments. The 1987 data represent establishments active during the year while in 1982 only establishments active at the end of the year are represented. 1987 economic census data are classified as retail trade establishments according to the 1987 Standard Industrial Classification (SIC) System, and 1982 data are classified according to the 1972 SIC System and the 1977 supplement. The 1987 SIC System reclassified used automobile parts and accessories from SIC 593 in the 1972 SIC System to SIC 5015 in the 1987 SIC System, thereby shifting it to the wholesale trade division and slightly affecting comparability at the division level. Governmental organizations are excluded from the Census of Retail Trade except for liquor stores operated by state and local governments. Lumber yards; paint, glass and wallpaper stores; typewriter stores; stationery stores; and gasoline service stations were included although they sell to both the general public for personal and household consumption and to businesses.

7202 RCSALES
Retail Sales in Establishments with Payroll ($000s). These data represent all sales for establishments with payroll that are primarily engaged in selling merchandise for personal or household consumption and in rendering services incidental to the sale of goods. Both the 1982 and the 1987 data cover all establishments with payroll which were in business at any time during the year. Sales include merchandise sold for cash or credit, are net after deductions for refunds and allowances for returned merchandise, and do not include sales taxes collected from customers. See RCESTAB (variable 7201).

7203 RCPAYROLL
Retail Annual Payroll ($000s). Payroll includes all forms of compensation such as salaries, wages, commissions, bonuses, vacation allowances, sick-leave pay, and the value of payments-in-kind (e.g., free meals and lodgings) paid during the year to all employees. Payroll is reported before deductions for Social Security, income tax, insurance, union dues, etc. and is the same definition used by the IRS on Form 941. Tips and gratuities received by employees from patrons and reported to employers are included. For corporations, it includes amounts paid to officers and executives; for unincorporated businesses, it does not include profit or other compensation of proprietors or partners. The data include all establishments with payroll which were in business at any time during the year. See RCESTAB (variable 7201).

7205 RCEMPLOYEES
Retail Paid Employees, March 12 Pay Period. Full-time and part-time employees, including salaried officers and executives of corporations, who were on the payroll in the pay period including March 12 of the census year. Included are employees on paid sick leave, paid holidays, and paid vacations; not included are proprietors and partners of unincorporated businesses. The definition of paid employees is the same as that used on IRS Form 941. The data include all establishments with payroll which were in business at any time during the year. See RCESTAB (variable 7201).

7228 WCESTAB
Wholesale Establishments with Payroll. These figures represent the number of establishments (i.e., physical locations where business is conducted) classified primarily as wholesale that have payroll. Wholesale classification implies that the establishment is engaged primarily by selling merchandise to retailers; to industrial, commercial, institutional, farm, or professional business users; or to other wholesalers; or acting as agents or brokers in buying merchandise for or selling merchandise to such persons or companies. The 1987 data represent establishments active during the year while in 1982 only establishments active at the end of the year are represented. The 1987 method permits the representation of more wholesale establishments than the 1982 method did, but the effect varies by industry. 1987 economic census data are classified as wholesale trade establishments according to the 1987 Standard Industrial Classification (SIC) System, and 1982 data are classified according to the 1972 SIC System and the 1977 supplement. The 1987 SIC System reclassified "used automobile parts and accessories" from SIC 593 in the 1972 SIC System to SIC 5015 in the 1987 SIC System, thereby shifting it to the wholesale trade division and slightly affecting comparability at the division level. Governmental organizations are excluded from the Census of Wholesale Trade except for liquor establishments operated by state and local governments. Establishments primarily engaged in selling merchandise to contractors are included, with the exception of lumber yards; and paint, glass, and wallpaper stores, which are classified in retail trade if they sell to the general public, even if a higher proportion of their sales is made to contractors.

7229 WCSALES
Sales of Wholesale Establishments with Payroll ($000s). These data represent all sales for establishments with payroll that are primarily engaged in selling merchandise to retailers; to industrial, commercial, institutional, farm, or professional business users; or to other wholesalers; or acting as agents or brokers in buying merchandise for or selling merchandise to such persons or companies. Both the 1982 and 1987 data cover all establishments with payroll which were in business at any time during the year. Sales include merchandise sold for cash or credit at wholesale and retail by establishments primarily engaged in wholesale trade; include gasoline, liquor, tobacco, and other excise taxes which are paid by the manufacturer and passed on to the wholesaler; are net after deductions for refunds and allowances for returned merchandise; and do not include sales taxes collected from customers. See WCESTAB (variable 7228).

7230 WCPAYROLL
Wholesale Annual Payroll ($000s). Payroll includes all forms of compensation such as salaries, wages, commissions, bonuses, vacation allowances, sick-leave pay, and the value of payments-in-kind (e.g., free meals and lodgings) paid during the year to all employees of wholesale establishments. Payroll is reported before deductions for Social Security, income tax, insurance, union dues, etc. and is the same definition used by the IRS on Form 941. For corporations, it includes amounts paid to officers and executives; for unincorporated businesses, it does not include profit or other compensation of proprietors or partners. The data include all establishments with payroll which were in business at any time during the year. See WCESTAB (variable 7228).

7231 WCEMPLOYEES
Wholesale Paid Employees, March 12 Pay Period. This includes full-time and part-time employees, including salaried officers and executives of corporations, who were on the payroll in the pay period including March 12 of the census year. Included are employees on paid sick leave, paid holidays, and paid vacations; not included are proprietors and partners of unincorporated businesses. The definition of paid employees is the same as that used on IRS Form 941. The data include all establishments with payroll which were in business at any time during the year. See WCESTAB (variable 7228).

7232 WCMERCHEST
Merchant Wholesale Establishments. These data represent each physical location where a business with payroll is conducted that engages primarily in buying and selling merchandise on their own account. It includes such types of establishments as wholesale merchants or jobbers, industrial distributors, voluntary group wholesalers, importers, exporters, cash and carry wholesalers, retailer cooperative warehouses, terminal and country grain elevators, farm products assemblers, wholesale cooperative associations, and petroleum bulk plants and terminals operated by nonrefining companies. Wholesale distributors and jobbers are establishments primarily engaged in buying and selling merchandise in the domestic market not manufactured by the parent company. Importers are establishments that buy and sell goods at wholesale on their own account, and whose principal source of purchases was foreign. Exporters are establishments primarily engaged in purchasing goods in the United States and selling them to foreign customers. Terminal grain elevators are primarily engaged in buying and selling grain received from country grain elevators and grain marketing establishments. They have sizable space for grain storage, and products are received primarily by rail or barge rather than by truck. Country grain elevators, cooperative or other, buy and receive grain directly from farmers by truck and sell at wholesale. Assemblers of farm products, except country grain elevators are establishments primarily engaged in purchasing directly from farmers and

assembling and marketing farm products at wholesale. The 1987 data represent all establishments active during the year while in 1982 only establishments active at the end of the year are represented. See WCESTAB (variable 7228).

7235 WCMERCHEMP
Wholesale Merchant Paid Employees, March 12 Pay Period. This includes full-time and part-time employees, including salaried officers and executives of corporations, who were on the payroll in the pay period including March 12 of the census year. Included are employees on paid sick leave, paid holidays, and paid vacations; not included are proprietors and partners of unincorporated businesses. The definition of paid employees is the same as that used on IRS Form 941. The data include all establishments that were in business at any time during the year. See WCMERCHEST (variable 7232) and WCESTAB (variable 7228).

7238 SCESTAB
Service Industry Establishments with Payroll. These data represent the number of establishments (i.e., physical locations where business is conducted) classified primarily as service that have a payroll. Service classification implies that the establishment is engaged primarily by selling merchandise for personal or household consumption and in rendering services incidental to the sale of the goods. An establishment is not necessarily identical with the enterprise (firm), which may consist of one or more establishments. Firms not subject to federal income tax are excluded. The 1987 data represent all establishments active during the year while in 1982 only establishments active at the end of the year are represented. The 1987 method permits the representation of more service establishments than the 1982 method did, but the effect varies by industry. 1987 economic census data are classified as service industries establishments according to the 1987 Standard Industrial Classification (SIC) System, and 1982 data are classified according to the 1972 SIC System and the 1977 supplement. The 1987 Census of Service Industries includes hospitals (SIC 806) whereas the 1982 Census does not. For 1987, hospitals operated by governmental organizations are included. Government-operated facilities in other service kind-of-business classifications are excluded from the census.

7239 SCRECEIPTS
Service Industry Receipts for Establishments with Payroll ($000s). This includes all receipts for establishments with payroll from customers or clients for services rendered, from the use of facilities, and from merchandise sold during the census year whether or not payment was received in the census year, except for health practitioners and legal, architectural, engineering, and surveying services, which reported on a cash basis (payments received in the census year regardless of when services were rendered). Excise taxes on gasoline, liquor, tobacco, etc., which are paid by the manufacturer or wholesaler and passed on in the cost of goods purchased by the service establishment, are also included. For 1987, receipts from leasing of vehicles, equipment, etc. marketed under operating leases are included in receipts figures as well as the fair sales value of merchandise marketed in 1987 under capital, finance, or "full payout" leases. For 1987, receipts also include the total value of service contracts, amounts received for work subcontracted to others, and dues and assessments from members and affiliates. Firms not subject to federal income tax are excluded. Receipts are net after deductions for refunds and allowances for returned merchandise; and do not include sales or other taxes collected from customers and remitted to a government agency. Both the 1982 and 1987 data cover all establishments with payroll which were in business at any time during the year. See SCESTAB (variable 7238).

7240 SCPAYROLL
Service Industry Annual Payroll ($000s). Payroll includes all forms of compensation such as salaries, wages, commissions, bonuses, vacation allowances, sick-leave pay, and the value of payments-in-kind (e.g., free meals and lodgings) paid during the year to all employees. Payroll is reported before deductions for Social Security, income tax, insurance, union dues, etc. and is the same definition used by the IRS on Form 941. Tips and gratuities received by employees from patrons and reported to employers are included. For corporations, it includes amounts paid to officers and executives; for unincorporated businesses, it does not include profit or other compensation of proprietors or partners. Firms not subject to federal income tax are excluded. The data include all establishments with payroll which were in business at any time during the year. See SCESTAB (variable 7238).

7242 SCEMPLOYEES
Service Industry Paid Employees, March 12 Pay Period. This includes full-time and part-time employees, including salaried officers and executives of corporations, who were on the payroll in the pay period including March 12 of the census year. Included are employees on paid sick leave, paid holidays, and paid vacations; not included are proprietors and partners of unincorporated businesses. The definition of paid employees is the same as that used on IRS Form 941. The data include all establishments with payroll which were in business at any time during the year. Firms not subject to federal income tax are excluded. See SCESTAB (variable 7238).

7265 MFGESTABL
Manufacturing Establishments with Payroll. These figures represent the number of establishments (i.e., physical locations where business is conducted) with payroll, which were classified primarily as manufacturing. Manufacturing classification implies that the establishment is engaged primarily in the mechanical or chemical transformation of material into new products. The assembly of component parts of products also is considered to be manufacturing if the resulting product is neither a structure nor other fixed improvement. An establishment is not comparable to a company or enterprise, which may consist of more than one establishment. Data represent all establishments active at any time during the year. The entire establishment was classified based upon its major activity. However, when distinct and separate economic activities (for which different industry classification codes were appropriate) were conducted under the same ownership at a single location, separate establishment reports for each of the different activities were obtained in the census. 1987 economic census data are classified as manufacturing establishments according to the 1987 Standard Industrial Classification (SIC) system, and 1982 data are classified according to the 1972 SIC System and the 1977 Supplement. The sum of counties and state toals may differ due to figures being withheld for some counties to avoid disclosing data for individual companies.

7267 MFGEMPLOY
Paid Employees in Manufacturing. From the Census of Manufacturing, this item includes all full-time and part-time employees on the payrolls of manufacturing establishments during any part of the pay period ending nearest the 12th of the months specified on the

report form. Included are all persons on paid sick leave, paid holidays, and paid vacations during these pay periods. Officers of corporations are included as employees; proprietors and partners of unincorporated firms are excluded. The "all employees" number is the average number of production workers plus the number of other employees in mid-March. The number of production workers is the average for the payroll periods including the 12th of March, May, August, and November. See MFGESTABL (variable 7265).

7268 MFGPAYROLL
Annual Payroll of Manufacturing Employees ($000s). From the Census of Manufacturing, this item includes gross earnings of all employees on the payroll of operating manufacturing establishments paid in the calendar year. It includes all forms of compensation, such as salaries, wages, commissions, dismissal pay, all bonuses, vacation and sick leave pay, and compensation in kind, prior to such deductions as employees' Social Security contributions, withholding taxes, group insurance, union dues, and savings bonds. The total includes salaries of officers of corporations, but excludes payments to proprietors or partners of unincorporated concerns. Also excluded are payments to members of Armed Forces and pensioners carried on the active payroll of manufacturing establishments. The data include all establishments with payroll that were in business at any time during the year. See MFGESTABL (variable 7265).

7269 MFGPRODWRKRS
Manufacturing Production Workers. This item includes the total number of workers (up through the line-supervisor level) engaged in fabricating, processing, assembling, inspecting, receiving, storing, handling, packing, warehousing, shipping (but not delivering), maintenance, repair, janitorial and guard services, product development, auxiliary production for plant's own use (e.g., power plant), recordkeeping, and other services closely associated with these production operations at the establishment covered by the report. Employees above the working-supervisor level are excluded from this item. See MFGESTABL (variable 7265).

7272 MFGVALUADDED
Value Added by Manufactures ($000s). This measure of manufacturing activity is derived by subtracting the cost of materials, supplies, containers, fuel, purchased electricity, and contract work from the value of shipments (products manufactured plus receipts for services rendered). The result of this calculation is adjusted by the addition of value added by merchandising operations (i.e., the difference between the sales value and the cost of merchandise sold without further manufacture, processing, or assembly) plus the net change in finished goods and work-in-process between the beginning and end-of-year inventories. See MFGESTABL (variable 7265).

7274 MFGSHIPVALU
Value of Shipments by Manufactures ($000s). This item covers the received or receivable net selling values, f.o.b. plant (exclusive of freight and taxes), of all products shipped, both primary and secondary, as well as all miscellaneous receipts, such as receipts for contract work performed for others, installation and repair, sales of scrap, and sales of products bought and resold without further processing. Included are all items made by or for the establishments from materials owned by it, whether sold, transferred to other plants of the same company, or shipped on consignment. The net selling value of products made in one plant on a contract basis from materials owned by another was reported by the plant providing the materials. Regarding multi-unit companies, the manufacturer reported the value of products transferred to other establishments of the same company at full economic or commercial value, including not only the direct cost of production but also a reasonable proportion of "all other costs" (including company overhead) and profit. The sum of counties and state totals may differ due to figures being withheld for some counties to avoid disclosing data for individual companies. See MFGESTABL (variable 7265).

Appendix

North Carolina State Data Center

The North Carolina State Data Center

The North Carolina State Data Center network is a major source for statistical information about the state. It is a depository for data products from the Bureau of the Census and the Bureau of Economic Analysis, and its lead agency is the mandated registrar for all state government statistical series. While disseminating primarily decennial, economic, and agricultural census information, the Data Center network also serves as a data clearinghouse for the inquiring public and provides referral service to appropriate government agencies. Affiliated agencies cover a broad spectrum of services and information specialties.

The Office of State Budget and Management serves as the lead coordinating agency in this network of nearly 50 state and local contacts, which cooperate to strengthen data delivery to users at low cost. Other state level coordinating agencies are the North Carolina State Government Library in the Department of Cultural Resources, the Institute for Research in Social Science at UNC, and the Center for Geographic Information and Analysis in the Department of Environment, Health, and Natural Resources.

The Office of State Budget and Management provides service in processing census electronic data, user consultation, statistical clearinghouse activities, and training in the use of statistical data. The office abstracts, catalogues, and indexes public state data series. It developed and maintains the on-line Log Into North Carolina (LINC) data base. State Budget publishes several statistical compendia and directories as well as the State Data Center Newsletter.

The State Library provides access to statistical information from both government and private sources. It houses an extensive collection of statistical publications produced by the federal government and is an official depository for North Carolina state government publications. The library reproduces census maps for areas of the state. It disseminates data from compact-disc/read-only-memory products of the federal government and private publishers. The library maintains an extensive electronic network, which provides information sources for libraries and government agencies.

The Institute for Research in Social Science provides assistance, consultation, and training in the retrieval and display of census machine-readable data and assistance with printed census data to users in the university and educational community. It maintains many other data bases such as the Carolina Poll and national survey data files.

The Center for Geographic Information and Analysis maintains a state-wide geographic information system of land-related data and digital information, which can be accessed and analyzed by public agencies on a cost recovery basis. It serves as a clearinghouse for locating other geographic data sources and performs complete land resource projects for clients. The center's data base includes data layers for all statistical and governmental boundaries and other features of the 1990 census mapping process.

A network of 36 local affiliate agencies multiply the user services of the data center network. These are comprised of contacts at the eighteen multi-county planning regions, ten major public libraries, and eight academic contacts across the state.

When seeking local data, users are encouraged to begin with their local affiliate contact. A current list of affiliates is available from the State Data Center, Office of State Budget and Management, 116 West Jones Street, Raleigh, North Carolina 27603-8005.

State government agencies and users needing state level information should begin their search with the information desk at the State Library at 919/733-3270.

Log Into North Carolina (LINC)

The On-Line Source for North Carolina Statistics

Log Into North Carolina (LINC) is an automated statistical data base service provided by the North Carolina State Data Center, Management and Information Services, Office of State Budget and Management. An interactive menu system allows users with access to the state's mainframe computer to view, print, or export a wealth of popular federal, state, and local government statistics pertinent to North Carolina and its counties and municipalities. The tables presented in this publication were generated from LINC, and are a small subset of the data base. No prior computer experience is required to use LINC.

Access

LINC is accessed through the statewide data network operated by State Information Processing Services (SIPS), using either dedicated lines (SNA) or dial-in (X.25). All data are public and intended for unrestricted access. Users with access to TSO (Time Sharing Option) at the State Computer Center can use LINC without making any special arrangements. Batch access is also available. A SIPS billing code is required. For organizations outside state government, an application form for requesting a billing code is available from the State Data Center at 919/733-7061.

Documentation

A printed users guide, available on request, contains all information needed for on-line access, as well as a data directory detailing the data base contents. A mailing list is maintained for free distribution of the newsletter, "LINC Log". Thorough on-line documentation, consisting of user notices, documents, variable definitions, and help screens, is available through the menus.

What Is New In Version Three

Version three of LINC contains the new expanded data base used to produce this publication. It contains nearly 1,000 variables, 250 more than version two, most of these being new data acquisitions from state government. The public release of version three, including the *LINC User's Guide, Version 3,* will occur subsequent to the publication of the *Statistical Abstract of North Carolina Counties.* Until that time, version two is available. Please note that the variable numbers referenced in the abstract are from version 3, and may not be correct for version two. When using version two, please use the data directory contained in the *LINC User Documentation, Version 2.0.*

Data Stratification

All data variables are stratified geographically, at the county level. They can be obtained for any of the 100 counties, for the state as a whole, and, in most cases, for county aggregate areas such as metropolitan statistical areas (MSAs), planning regions, and several other regional classifications which have been requested by state agencies. In addition, variables whose numbers are 5000 or above are available for at least some of North Carolina's incorporated municipalities.

Nearly all variables are stratified by years, beginning as early as 1969, and ending with the latest data currently available. Some variables also have other stratifiers to provide additional detail, when needed.

Ready-made Reports

For speed and convenience, predefined tables called **topic reports**, each including a set of data variables pertinent to a given topic, can be selected from the menus. The user retains control of the years and geographic areas displayed.

Customized Reports

For greater flexibility, a **generic report** menu option allows users to select any combination of variables to be displayed, using the variable numbers from the printed data directory. In addition, ad hoc variables, such as rates and percentages, can be defined through the menus.

Users familiar with the FOCUS* software reporting language can go beyond the menus to achieve even greater flexibility. Report commands can be typed, recalled, edited, and/or saved for future use.

Data Analysis

Certain analysis capabilities, such as ranking and character graphics, are available through the menus. The FOCUS* interactive statistics package is also available. Users may also export LINC data for analysis using their favorite software, such as SAS* on the mainframe, or spreadsheet and graphics packages on microcomputers.

Printing

LINC reports can be printed on any printer which is addressable through the state network, including printers attached to microcomputers when the appropriate software is used.

Downloading

All LINC reports can be downloaded to microcomputer disk, using appropriate terminal emulation software. Available formats include ASCII text (word processing) and comma-delimited, making the data usable by virtually all popular personal computer packages.

Overview of Data Base Contents

County level and above:

- State government agency data series, including, but not limited to, those shown in this publication. Most are annual, beginning as early as 1970 and ending with the latest currently available.

* Focus is a product of Information Builders, Inc. SAS is a product of SAS Institute, Inc.

- Bureau of Economic Analysis estimates of income, employment, and transfer payments, including earnings and employment by industry, annual since 1969.

- Population counts, estimates, and projections by age, race, and sex: 1970, 1980-1990, 1995, 2000, 2010.

- Monthly labor force and employment: January 1985 through latest month available.

- Census of Agriculture county summary statistics, 1982 and 1987.

Municipal level and above:

- State government agency data series, including, but not limited to, those shown in this publication, with variable numbers above 5000.

- Decennial censuses: 1970, 1980, and 1990. Variables selected for comparability between censuses, occupation by race and sex in 1980, and redistricting data (including townships and tracts) in 1990. Additional 1990 data will be added when it becomes available.

- Building permit survey data: Number of permits and cost of construction for various types of structures, for all permit-issuing places, annual since 1984.

- Per capita money income estimates (Census Bureau).

- Consolidated federal funds: federal funding by program title and object category, annual since 1986.

- Economic censuses of retail and wholesale trade, services, and manufacturing industries: establishments, payroll, and other statistics for 1982 and 1987.
